Gill Bros
Seed Co.

GILL'S GOLDEN
DELICIOUS SQUASH

Take Mt. Hood Depot car on Montavilla line to 89th Street, thence four blocks east and four north to Farm. Autos take East Glisan to Craig Road, thence north to Barr Road and west two blocks to office. Our business is all transacted direct from our Farm.

HOW TO ORDER

Order early as there is a heavy demand on some stock and it may be exhausted.

Remittance must accompany your order. Stamps are accepted up to \$1.00. Money orders, Express Orders, Bank Drafts and Certified Checks are preferred. Checks not certified may cause delay in filling your order.

Prices in this catalog by Express or Freight do not cover shipping expenses. E. or F., indicates express or freight.

Unless otherwise mentioned, all prices are postpaid, except those by Express or Freight and indicated by E. or F.

All prices up to and including one pound include shipping expenses and for more only when indicated.

Give shipping instructions and write your name and address plainly on your order.

Write your correspondence on a separate sheet from your order. The seed season is a rush season. Write briefly and to the point.

SAVE MONEY BY PARCEL POST. PLEASE READ

In ordering seeds in quantity you can save money by using our express or freight prices, marked E. or F., in this catalog. Simply add the postage to these prices at the zone rates. In case you do not know the zone to Portland, simply include extra funds and mark your order "postage allowance." Any overrun will be refunded to you.

PRACTICAL EXPERIENCE

As market gardeners and the many tests we have made for years, has given us a thorough knowledge of the varieties best suited for our climate, and aside from those varieties which we grow, has enabled us to secure our seed from the best sources. In that respect we differ from the average seed store where the experience is more from a selling standpoint.

WE SPECIALIZE IN MARKET GARDENER TRADE

Hundreds of market gardeners all over the Northwest look to us for high grade seeds. If you buy in quantities, write us a list giving variety and quantity and we will be glad to quote our gardener rates.

FOREWORD

Dear Customers and Readers:

This is not a large, pretentious catalog, yet it brings you an honest message about seeds, bulbs, etc. The high quality of our goods is favorably known throughout the Northwest, besides which we have many customers throughout the nation. For years we have been producing special strains of seed here on our own farm and many new varieties of our own origin are recognized as leaders by market gardeners.

We specialize in Northwest grown seeds and where these are not obtainable we procure the best, without regard to cost, from the world's best growers. Seeds grown in the moderate summer and winter conditions of the Northwest have great vitality and vigor. Northwest grown seeds are indicated in this catalog with a star. If you have not tried our seeds, please give us a trial order. Many of the largest growers and associations in the northwest depend upon our seeds.

There is many seed shortages this season due to unfavorable weather conditions and we urge early orders.

OUR GUARANTEE

Be sure to read our guarantee which is printed on our order blanks. It is different from the usual trade guarantee and is as fair as anyone could ask.

WHO WILL RECEIVE OUR CATALOG

Our files show us the names of all who have ever sent us an order. To these we mail our catalog each year, and we also mail our catalog again to all those who received our catalog the first time last season regardless whether they sent an order or not. However we will send catalogs free upon request.

OUR CATALOG

Has been prepared with the desire to have it sensible and free from exaggeration. The cuts used are practically all made from photographs taken from samples grown by ourselves and are reasonable illustrations of the results obtained from our seeds. We are opposed to filling our catalog with a long list of worthless novelties and are confining our list to the fewest possible varieties, and introducing only those new sorts which have some added value over other introductions. Those who receive more than one copy of our catalog will confer a favor by handing it to someone interested.

MISTAKES

Like all human beings, we are apt to make mistakes, and if an error occurs, we will consider it a favor to be notified at once so that we can rectify the oversight.

If you have a complaint, tell us first. In the rush of Spring business, mistakes may happen, but if so, tell us pleasantly about it and be assured of courteous treatment.

SUBSTITUTION

In view of the fact that some kinds of seed are short this year, we would suggest that customers give as much as possible, their permission for us to substitute the nearest variety to the one ordered in case we should be sold out. On items of small importance, or during the planting season, when time is precious, we may occasionally send other sorts if out of the ones ordered, but such substitutions may be returned for credit if unsatisfactory to the purchaser.

VEGETABLE SEED SUBJECT TO CHANGE IN EXTREME CASES

We expect to be able to maintain the prices quoted in this catalog, but owing to constantly changing conditions, disturbing replacement values, we must reserve the right to make advances on such items as might otherwise be sold at a loss.

HELPFUL SUGGESTIONS

We are always willing to offer any assistance in our power regarding culture, best varieties for your soil and market, etc. We will also be glad to consider any suggestion you may wish to make to us regarding our catalog, service, seeds, etc.

VEGETABLES

ARTICHOKE

Large Green Globe—The green buds are used. Start in hotheds. Pkt. 20c; oz. \$1.00.

Jerusalem—The tubers are used for stock feed. See section field seeds.

ASPARAGUS

CULTURE—Set the plants about four inches deep and one to two feet apart in rows four to six feet apart. One-year roots are considered by some the best to plant, although other authorities claim it is best to plant the seed where they are to remain in their permanent bed, thinning them to the proper distance. The seed is of slow germination and should be planted early in the Spring.

GIANT WASHINGTON—The genuine rust resistant strain. The result of plant research and breeding by U. S. Department of Agriculture. This variety is a much stronger plant and more productive. Owing to its great vigor it can be cut sooner from time of planting. Color much like Palmetto but the stalks are larger and more uniform. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.25.

MARY WASHINGTON—A special selection from Giant Washington being earlier and larger but equally rust resistant. We carry a special, selected strain. Pkt. 15c; oz. 45c; $\frac{1}{4}$ lb. \$1.25; lb. \$3.75.

PALMETTO—An old favorite. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. 90c.

First, keep the quality right, then the price.

DWARF

CULTURE—Plant about May 1st for early beans, soil. Large seeded beans require warmer weather to inches deep, according to weather conditions. Never from dew or rains, as it will produce rust.

PRICES ON BEAN SEED. Unless otherwise stated prices are uniformly as follows; Pkt. 10c; $\frac{1}{2}$ lb. 20c; lb. 35c, postpaid. E. or F., lb. 30c; 10 lbs. @ 24c; lb. 25 lbs. @ 21c. Write for prices on greater quantities.

*PENCIL POD BLACK WAX—Hardy and prolific and of the finest quality. The pods are bright waxy yellow, long and round and entirely free from strings. Desirable for home or market and very valuable for canning.

*GILL'S RELIABLE—The pioneer bean and is found under various names throughout the Northwest. We have grown it in our family for forty years. It is very popular as a home garden bean. It is remarkably prolific and hardy, having few superiors, either as a string or dry bean. The pods are green and the seed pure white. Unless picked very young, the pods need stringing. Fine for canning and a good all around bean.

*WEBBER WAX—Long, handsome, bright yellow pods of fine quality. It is hardy, a heavy cropper and extra early. Pods round flat and seed yellow. A splendid stringless bean.

*BURPEE'S STRINGLESS GREEN POD—The best early bush bean we have ever tried. The pods are green, of good length, entirely stringless, tender and brittle and remain so until ripe. This brown-seeded bean is both early and hardy and one of the richest flavored beans of all. A popular market or garden bean and desirable for canning or drying.

*BLACK VALENTINE—Very hardy; extremely early, notwithstanding cold damp weather better than most sorts. Pods dark green, long, straight and nearly round. Popular with market gardeners but not very high in quality unless picked young.

*DWARF HORTICULTURAL or CRANBERRY—A rich flavored early bush bean generally used as a green shell bean; vigorous and prolific. Seed and pod striped and blotched red. This class of beans should be more grown, as they are very rich flavored, used either green or dry for Winter.

ASPARAGUS ROOTS

One year and 2 year as applied to asparagus roots simply means a grade for size only.

GIANT WASHINGTON—1 year roots, doz. 40c; 50 @ 75c; 100 @ \$1.25 postpaid. E. or F. 1000 @ \$6.00. 2 year roots, doz. 50c; 50 @ \$1.00; 100 @ \$1.50 postpaid. E. or F. 1000 @ \$7.50.

MARY WASHINGTON—1 year roots doz. 60c; 50 @ \$1.25; 100 @ \$2.00. E. or F. 1000 @ \$8.50. 2 year roots doz. 75c; 50 for \$1.50; 100 for \$2.50 postpaid. 1000 @ \$9.50.

PALMETTO—1 year roots doz. 35c; 50 for 65c; 100 @ \$1.00 postpaid. E. or F. 1000 @ \$5.50. 2 year roots doz. 40c; 50 for 80c; 100 for \$1.35 postpaid. E. or F. 1000 @ \$6.50.

BEANS

as soon as the ground becomes warm, in light loamy soil. Large seeded beans require warmer weather to cultivate or hoe beans when the foliage is damp

SHELL BEANS

*OREGON LIMA—A large, pole lima, extra early and suited for Northwest culture. It is acclimated and matures ripe pods 75 days from planting. Excellent used as a butter bean or stored dry for winter use. Large, pure white seed of Oregon growth. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c; E. or F., lb. 35c; 10 lbs @ 30c lb.

*BOSTON PEA BEAN—Various sorts sold under White Wonder, Mexican Tree Bean, etc., are apparently the same. The plants do not run to vine and ripen early, producing a heavy yield of pure white beans slightly smaller than Lady Washington, but much earlier.

The best small white bean for commercial growing in the Northwest. Pkt. 10c; $\frac{1}{2}$ lb. 20c; lb. 30c. E. or F., lb. 25c; 10 lbs 20c lb.

POLE BEANS

*KENTUCKY WONDER WAX—This is a wax podded Kentucky Wonder and many think it is of better flavor. It is a more vigorous grower and will yield fully as heavy as the Kentucky Wonder. The pods are a light yellow, extra large, broad and long and cook very tender. Matures quite early.

*OREGON GIANT—(Dickinsons Yount)—A giant bean, often a foot in length and one inch in diameter. The pods are light yellowish green, striped with deep carmine. The stripe disappears when cooked and the quality is delicious. A splendid salad bean. Pkt. 15c; $\frac{1}{2}$ lb. 30c; lb. 50c.

WHITE SEEDED KENTUCKY WONDER or BURGER'S STRINGLESS POLE—Similar to Kentucky Wonder with white seed. Many market gardeners prefer this to Kentucky Wonder. It produces heavier and is freer from strings. Being white seeded it is valuable for winter use. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c. E. or F. lb. 35c; 10 lbs. @ 26c; 25 lbs. @ 24c.

We are always alert to find new and better varieties and strains of vegetable seeds. You will find this a progressive, up-to-date catalog. Read our special offers on inside of back cover.

POLE BEANS CONTINUED

See bean prices on preceding page.
*GILL'S DELICIOUS GIANT—(See cut.) When we introduced the Oregon Giant bean we felt it could not be surpassed for size and quality, but in this cross between Oregon Giant and Kentucky Wonder, we have originated a variety twice as productive, equal in size and quality—and we believe the easiest bean of all to pick. The beans are produced in clusters of 4 to 6, the stems of which protrude outside the foliage. The seven beans shown in the cut weighed one-half pound. It is therefore easily possible to pick a pound of beans from three clusters. The flavor is unsurpassed and the pods are so meaty that they shrink very little when cooked. The pods are green, faintly striped with red lines which disappear when cooked. We predict this new sort will become very popular with home gardeners, market gardeners and highway stands. The vines are very vigorous and the pods are more rounded than Oregon Giant but fully as long. If you like green beans fresh for the table or for canning do not fail to order this. Pkt. 15c; $\frac{1}{2}$ lb. 35c; lb. 65c.

*KENTUCKY WONDER—A standard variety often called Asparagus Bean. It produces exceptional yields of long, green pods of fine quality. We carry a true strain.

*LONDON HORTICULTURAL or CRANBERRY POLE BEAN—Pods green streaked with red. Excellent used green, shelled or dry.

BRUSSEL SPROUTS

LONG ISLAND—Plants of medium height, producing a good yield of close, compact heads. Recommended for market gardeners. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 85c; lb. \$3.00.

CRESS

FINE CURLED (PEPPER GRASS) — Grows quickly from seed. Sow thinly in drills. Should be planted at intervals as it runs to seed quickly. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 45c.

CELERY CABBAGE

WONG BOK—A delicious salad vegetable from China excellent for salads and cold slaw, and is sometimes used like Swiss Chard. The stems can be used like celery. This vegetable is making good, both for market and home gardens. For best results, plant seed in August and transplant in September. It can also be planted in early spring. Those who appreciate a delightful and refreshing salad should grow some of this in their garden. Use plenty of our Garden Grow fertilizer to secure a quick, strong growth. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.75.

CHICKORY

LARGE ROOTED—Chickory does well in this climate and is considered an excellent substitute for coffee. Plant like carrots. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

WITLOOF or FRENCH ENDIVE—The roots are transplanted and the shoots are bleached for winter use as a salad. They are also used like Endive. Pkt. 10c; oz. 40c.

SWISS CHARD

LUCULLUS—Grows about two and a half feet high. The heavy stalks are over an inch thick and bare for more than a foot of their length. Should be served as you would asparagus. The leaves make the finest of "greens." Swiss Chard is hardy, easily grown, and should be in every garden. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

LARGE WHITE RIBBED—Large white ribs which are used like Asparagus. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

Note the varieties of seed indicated with a star. These are Northwest grown and many of them are our own growing. We strive wherever possible to supply northern grown seed.

Gill's Delicious Giant

SUGAR BEET

KLEIN WANZLEBIN—The best variety for making sugar. Write your agricultural college for instructions on making sugar. It is also valuable for feeding purposes. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. 90c.

CORN SALAD

LARGE SEEDED—Sow in spring, in drills one foot apart; it will mature in 6 or 8 weeks. For winter and early spring use, sow in drills in August and September. Three ounces to 100 feet of drill. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; lb. \$2.00.

BROCCOLI

(Hardy Cauliflower)

*ST. VALENTINE SPECIAL—The best sort for spring shipment; the solid, handsome white heads being of immense size and ready in February. It is extensively grown around Roseburg, Oregon, for Eastern shipment.

This special strain is grown for us by a large, successful grower, the seed being saved from only the best heads true to the desired type. Only hardy plants with a strong tendency to self-protection were saved, and we believe we have one of the largest and best strains available.

Good Oregon grown seed is very scarce. Pkt. 20c; $\frac{1}{4}$ oz. \$1.00; oz. \$2.75; $\frac{1}{4}$ lb. \$10.00; lb. \$35.00.

ST. VALENTINE IMPORTED—We offer selected seed secured from the introducer in England. Pkt. 15c; $\frac{1}{4}$ oz. 60c; oz. 1.50; $\frac{1}{4}$ lb. \$5.00; lb. \$15.00.

MAMMOTH WHITE BROCCOLI—A late variety, season December to February. Long, tapering, heavy ribbed leaves; inner leaves curling about the head. While considered a broccoli, it is really only a late cauliflower. Brings fancy prices, but the grower must take chances of freezing. Pkt. 15c; $\frac{1}{4}$ oz. 50c; oz. \$1.50; $\frac{1}{4}$ lb. \$5.00.

Successful gardeners use the best seeds obtainable. We have a very large market gardener trade.

TABLE BEETS

CULTURE—Plant in rows 3 feet wide, with drill, April 1st to July 1st. Thin to 3 to 4 inches apart for table beets and 8 to 12 inches for mangels. For winter beets the latest sowing is best.

PRICES unless noted are uniformly: Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.00; postpaid. E. or F., 5 lbs. @ 90c; 10 lbs. @ 85c lb.

*EARLY MODEL—The best all around table beet for home or market. It is extremely early, of smooth, uniform shape. The flesh is dark red, entirely free from strings or core and unusually sweet. By years of careful selection we have perfected this strain until it has no equal.

*EARLY WONDER—A deep blood red beet, nearly globe shaped, with small clean tap roots and small erect tops. One of the earliest and most uniform bunching beets that can be grown and also very fine for late planting. They mature very even and will stand closer planting than most sorts.

*EXTRA EARLY EGYPTAIN SPECIAL — This strain has had our personal selection and produces extra early beets with small leaves and small tap roots. The roots are of rather fattened shape and the flesh is dark blood red and of finest quality.

*DETROIT DARK RED—Splendid for market or home garden and popular with canneries. Roots nearly round, very uniform and of medium size; flesh tender and blood red.

CROSBY'S EGYPTAIN — Extremely early with roots more globe shaped than the old Egyptain. Flesh tender and sweet and rich vermillion red. Popular with gardeners.

MANGEL BEET

PRICES ON MANGELS UNIFORMLY: Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 20c; lb. 55c; postpaid. E. or F., 5 lbs. or more @ 50c lb.; 10 lbs. @ 45c.

GOLDEN TANKARD—A smooth, yellow-fleshed mangel of large size. Growing largely above ground, making it easy to harvest.

MAMMOTH PRIZE LONG RED—Giant roots.

GIANT HALF SUGAR—Cross between a mangel and sugar beet. Flesh white and exceedingly rich.

GIANT INTERMEDIATE or GATE POST—Heavy cropper, roots yellow, flesh white. Grows nearly one-half out of the ground.

DANISH SLUDSTRUP — Long, reddish-yellow, grows well above the ground and is easy to pull. Awarded first-class certificate by Denmark.

GIANT YELLOW ECKENDORF—Giant, smooth, long roots of cylindrical shape, weighing up to 20 pounds each and growing two-thirds above ground. Solid white flesh with high food value.

ENDIVE

Culture similar to lettuce. The outer leaves should be tied over the head to bleach.

LARGE GREEN CURLY—One of the best sorts. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c.

EGG PLANT

Start in hot beds like tomatoes; avoid any checks in growth. Set 2 $\frac{1}{2}$ feet in the rows and 3 feet between.

BLACK BEAUTY—The earliest and best of the large fruited varieties. Color rich, lustrous purplish black. Pkt. 10c; $\frac{1}{2}$ oz. 40c; oz. 65c; $\frac{1}{4}$ lb. \$2.00.

HORSE RADISH

Plant in spring 18 to 24 inches apart. Set the roots small end down. Doz. 50c; 100 for \$2.00; postpaid. Write for prices on quantities.

DILL

Dill is very popular upon the markets and will give the grower splendid returns. We carry the large variety. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

It is our aim to reduce our vegetable variety list as much as possible so that we can concentrate our attention to improving all the kinds really needed. We will be glad to recommend varieties for your purpose. Just write us.

Early Model Beets

CELERY

GOLDEN SELF BLANCHING

We offer two strains of French grown seed secured direct from the originator. Both of these strains are quite free from green plants.

OLD STRAIN—This has been popular for years and produces heavy rounded stalks that are very firm and especially adapted for shipment. The plants are medium short and very compact and bleach golden yellow.

NEW STRAIN—The plants grow very tall and weigh very heavy. The stalks are wide and rather flat while the quality is extra fine being more free of strings than the old strain. They are valuable for local markets and also in dry climates where the old strain grows too small. This strain is very early and is largely planted for early crops.

PRICES ON BOTH STRAINS—Pkt. 10c; $\frac{1}{4}$ oz. 40c; oz. \$1.00; $\frac{1}{4}$ lb. \$3.50; lb. \$10.00.

—o—

GOLDEN PLUME—This new sort has proven to be very successful and is a cross between Easy Blanching and Golden Self Blanching. It has the robust habit of the former and the color of the latter. It is very hardy and usually free from blight. Pkt. 20c; $\frac{1}{4}$ oz. 75c; oz. \$2.50; $\frac{1}{4}$ lb. \$8.00.

SELECTED WHITE PLUME—An early sort which bleaches very tender and snow white. Pkt. 10c; oz. 45c; $\frac{1}{4}$ lb. \$1.25; lb. \$4.25.

CELERIAC, or TURNIP ROOTED CELERY, LARGE SMOOTH PRAGUE—The roots are turnip shaped and are used for soups and stews. They are very hardy and will stand in the open all winter in the coast regions. Pkt. 10c; oz. 25c.

FLORENCE FENNEL

An Italian vegetable with thick leaf stem and served boiled or sliced, also cooked in soups. Grown like celery. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. \$1.00.

CABBAGE

CULTURE—Early varieties should be started in cold frame in January or February, or sowed the fall previous. They can be grown in a hotbed, but this is not so good, as the plants become tender. The earliest cabbage can be grown by sowing seed in August or early September, then transplant to the field in October. For late, plant seed in open ground May 1st, transplant June 15 for fall and July 1st to 20th for winter cabbage, in rows $3\frac{1}{2}$ feet apart, from 26 to 42 inches in the row, according to the richness of the soil and size of variety. Do not crowd them. They do best in a rich, loamy soil, fertilized with barn-yard manure of any kind and applying our Garden Grow fertilizer as directed.

PRICES ON CABBAGE SEED are uniform as follows, unless otherwise noted; Pkt. 10c; oz. 40c; $\frac{1}{4}$ lb. \$1.35; lb. \$4.00; postpaid.

***GILL'S OREGON BALL HEAD**—The acknowledged leader among Northwest growers for a main crop winter cabbage. We have developed this strain until it excels all others for solidity, resistance to aphid or freeze injury. It is unquestionable the best cabbage for canning or general market purposes. The outer leaves are deep green and will hold their color weeks after cutting. It is the best keeper of all, and every plant will head solid if given half a show. It will stand later planting than any winter sort and still produce solid heads. More of our seed, of this variety, is planted in the Northwest, than any other kind for winter cabbage. Pkt. 15c; oz. 65c; $\frac{1}{4}$ lb. \$2.00; lb. \$6.65.

GOLDEN ACRE—It is claimed that this is the earliest round headed cabbage and that it matures before Early Jersey Wakefield. The heads are firm with few outer leaves and average about four pounds. Pkt. 15c; $\frac{1}{2}$ oz. 60c; oz. \$1.00; $\frac{1}{4}$ lb. \$3.00; lb. \$10.00

DANISH ROUNDHEAD—About two weeks earlier than Oregon Ball Head. The heads are larger and in demand for kraut purposes. It does not withstand aphid or freezing like Oregon Ball Head. Seed from carefully selected heads.

GLORY OF ENKHUISEN—The best variety for summer or early fall crops, for its tendency is to produce large heads even in dry weather. It can also be used for early spring crops. It is not satisfactory as a winter cabbage. Very brittle and sweet.

EXTRA EARLY COPENHAGEN MARKET—A strain of Copenhagen Market selected for extreme earliness and maturing a week to ten days ahead of the regular strain. Pkt. 10c; oz. 50c; $\frac{1}{4}$ lb. \$1.75; lb. \$5.00.

COPENHAGEN MARKET—Good sized, round heads, maturing with Large Wakefield, usually weighing 5 to 8 pounds. It will not do for fall sowing but is a splendid sort for second early.

EXTRA EARLY EXPRESS—Five to seven days earlier than Early Jersey Wakefield, producing pointed, firm heads of fair size.

Gill's Oregon Ballhead

EARLY JERSEY WAKEFIELD SPECIAL—This old favorite is still the most valuable for the main crop of early cabbage. We have secured a special strain with solid heads and few outside leaves. It also matured the earliest of some twenty strains we tested. Pkt. 10c; oz. 50c; $\frac{1}{4}$ lb. \$1.50; lb. \$4.50.

LARGE WAKEFIELD, or CHARLESTON—Similar to Jersey Wakefield, but half again as large and 10 days later.

ALL HEAD EARLY—A second early, flat headed sort, very sure heading and little subject to bursting. Extra fine for kraut. Very desirable for fall.

STONEHEAD RED—Deep red, solid heads resembling Oregon Ballhead in shape. Exceptionally solid and of good size. Pkt. 10c; oz. 50c; $\frac{1}{4}$ lb. \$1.50; lb. \$5.00.

CAULIFLOWER

CULTURE—For early Cauliflower, the same culture as for early cabbage may be used. For late cauliflower, in the description of the varieties offered, the time of planting seed and plants is given. Cauliflower does best in a rich, loamy soil, not a cold, wet location. Plant $2\frac{1}{2}$ to $3\frac{1}{2}$ feet in rows, and $3\frac{1}{2}$ feet between rows. As soon as the heads are large enough to soon be exposed to the light, tie or break the leaves carefully over the head to keep the light away from them. Great care should be used in growing plants of any of the early sorts, that they receive no severe check in their growth, as this will cause them to produce premature heads. Success can be had with early varieties by planting seed in the field where they are to grow, even as late as July 10. However, the soil should be thoroughly prepared, and several seeds put in a hill, thinning down to one plant when they have reached transplanting size.

GIANT EASY BLANCHING—This is now recognized by market gardeners as the leading cauliflower and over four hundred acres of this variety were planted in the Northwest last year from our seed. The large, solid, pure white heads are produced near the ground on short stems but the leaves are extra long, while the inner leaves fold closely about the head making them almost self protecting. This self protecting habit insures a greater number of first grade heads and the long leaves protect the heads in hauling or crating. The plants have strong vitality and are unusually free from disease. Practically every plant makes a fine head. For fall cutting sow the same as Gilt Edge. Tests for three years prove this sort especially valuable for early spring cutting. Pkt. 20c; $\frac{1}{4}$ oz. \$1.00; oz. \$3.00; $\frac{1}{4}$ lb. \$9.00; lb. \$32.00.

GILT EDGE or MT. HOOD SNOWBALL—Similar to Burpee's Best Early, but larger and produces heavier heads. The flower is quite smooth and regular and pure white when blanched. For fall use (October cutting) plant the seed June 1st to 10th and transplant July 15th to 25th. This variety is popular with many large growers. Pkt. 20c; $\frac{1}{4}$ oz. 90c; oz. \$2.75; $\frac{1}{4}$ lb. \$8.50; lb. \$38.00.

SELECT EARLY SNOWBALL—We have an especially good strain of this standard early cauliflower and can recommend it very highly. Our seed produces fine large heads that are solid and extra white. Pkt. 15c; $\frac{1}{4}$ oz. 65c; oz. \$2.00; $\frac{1}{4}$ lb. \$6.00; lb. \$20.00.

We specialize in high-grade cauliflower seed for market gardeners. Be sure to try our seed.

DANISH GIANT DRY WEATHER—The best sort for September markets. Extremely hardy and will withstand dry weather better than other sorts. The large, pure white heads are heavy and compact. They mature through a long season and when ready stand for several days without spreading. The leaves are quite tall and somewhat self protecting. For early fall use, plant the seed about April 15th, and transplant about July 1st to 10th. The seed can also be planted June 1st to 10th and transplanted July 20th to 25th. They will then mature in October and November. Pkt. 20c; $\frac{1}{4}$ oz. 80c; oz. \$2.50; $\frac{1}{4}$ lb. \$8.00; lb. \$28.00.

ALL SEASONS—This new cauliflower appears to be a cross between Large Algiers and Snowball. It is remarkably hardy and was not subject to root maggot injury like the Snowball types. Besides this it is proof against premature heads, even when the plants were left a month in the plant bed they did not produce fool heads. It shows remarkable resistance to summer heat making fine heads even in hot weather. It is also splendid for fall crops. The plants grow close to the ground, the leaves are dark green and somewhat curled while the heads are of medium size, solid and white. Pkt. 15c; $\frac{1}{4}$ oz. 65c; oz. \$2.00; $\frac{1}{4}$ lb. \$6.00; lb. \$20.00.

VEITCH'S AUTUMN GIANT (Italian Type)—A hardy, tall-growing cauliflower, making extra large, white heads. The leaves are dark green, and being extra long can easily be broken over the heads to

Giant Easy Blanching Cauliflower

portect them. It stands handling and shipping better than other varieties. Remarkably vigorous and thrifty. For late cauliflower, season of November and December, sow seed in open bed May 1st, transplant July 1st to 15th. Pkt. 15c; $\frac{1}{2}$ oz. 65c; oz. \$1.00; $\frac{1}{4}$ lb. \$3.50; lb. \$10.00.

CARROT

CULTURE—Carrots may be planted from March to June. We prefer to plant from May 10 to 25; they will then miss many of the spring weeds and will stand through the dry season better, making a better quality of roots. Those who plant any quantity should use a good drill, as it lessens the work and gives a more even stand. As soon as they are up use a wheel hoe, following this with a harrow tooth cultivator. Plant one-half to one inch deep according to weather conditions.

PRICES—Unless otherwise stated prices are uniformly as follows: Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 45c; lb. \$1.10. E. or F., 5 lbs. or more @ 90c per lb.

TABLE GEM—We believe this to be the finest of all table carrots. The roots are 5 to 6 inches long, of even diameter with blunt points. It is nearly coreless, exceptionally tender and sweet and is delicious eaten raw. It is very early and the tops are small. It is suited for forcing or outside culture. The high quality makes it ideal for home gardens, public markets and roadside stands. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 55c; lb. \$1.85.

***OREGON CHANTENAY**—This strain of our own growing produces very smooth roots slightly longer than the regular strain. It is very popular with gardeners and on account of acclimation shows greater vitality. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.65.

CHANTENAY—(See cut)—A good all-round carrot. The roots are very smooth, stump-rooted and somewhat thicker at the tops. It is early and produces immense crops; records of 50 tons per acre have been secured. It will stand more crowding than other sorts. The best variety for table use and very popular with canners and market gardeners. On account of its heavy production and superior quality it is also grown for feeding.

CORELESS, or SCARLET NANTES—The roots are bright orange, 5 to 6 inches long and very uniform. They have very small core and are exceptionally tender and sweet. The roots are rather slender, of even diameter and of early maturity. Very desirable for market, especially for bunching, and also splendid for the home garden.

DANVER'S HALF LONG—The standard stock carrot, but we do not recommend it for table use, as compared to the Chantenay. It is a heavy crop per. Our strain of it is extra good.

LONG ORANGE—Suited for deep soil; long red roots for stock feeding.

LARGE WHITE BELGIAN—Long-rooted white stock carrot; very heavy yielder. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

Sweet corn is a specialty with us and varieties of our own origin are well known and very popular.

SWEET CORN

The first requisite for success with corn is acclimated seed—Note those with star.

CULTURE—Prices paid for first early corn will pay the grower to take chances on early planting. For this planting use 4 to 5 seeds per hill and cover one inch deep. Space hills 28 to 36 inches, and rows 3½ feet, allowing two stalks to the hill, or as some prefer, and we think this gives the best results, plant 15 inches between hills, and thin to one stalk; this gives all the stalks an even show. April 20 to May 1 is a good season for early corn; of course, depending on the weather. May 15th to 25th is good for the later sorts, as they do not resist damp, cold weather so well as the early sorts.

Corn will not fill well unless the patch planted is blocked out; those planting small quantities should make the patch square, or nearly so. This will permit the pollen to blow down on the silk, fertilizing the ears. Early corn may be planted in succession up to June 25. Use Garden Grow fertilizer.

***GOLDEN EARLY MARKET**—Our 1925 introduction. All who have grown our Early Market can fully appreciate its counterpart in a golden colored ear. The ears are just as large, just as early and sweeter. We have been working on this new corn several seasons and while it does not mature quite as uniform as Early Market, gardeners will get high prices on the first yellow corn in the market. It is two weeks ahead of Golden Bantam, and while not so sweet, still the quality is ahead of other early sorts.

Market gardeners have secured big returns per acre and they are enthusiastic about it. The stalks grow vigorous and somewhat taller than Early Market. Pkt. 15c; ½ lb. 30c; lb. 50c; E. or F., 45c; 10 lbs. @ 40c; 25 lbs. 35c.

***GILL'S EARLY MARKET**—For years this has been recognized as the earliest true sweet corn and we have splendid reports from all over the United States. No other early variety has produced such large ears and of such high quality. It is 10 to 14 days earlier than Portland Market. The immense ears are well filled with large, sweet, plump, white grains set 12 to 14 rows to the cob. By planting this variety you will beat all other varieties in your neighborhood. On account of its extreme earliness and large size, market gardeners get very profitable prices. For earliest results, use plenty of fresh horse manure and Garden Grow fertilizer. Pkt. 10c; ½ lb. 20c; lb. 35c; postpaid. E. or F., lb. 30c; 10 lbs. @ 25c; 25 lbs. @ 22c; 100 lbs. @ 20c.

***HOWLING MOB**—In most sections of the Northwest the Evergreen varieties are too late of maturity to give satisfaction and this variety is rapidly taking their place. The ears are very large and filled tightly with medium sized grains of pearly whiteness. There are usually 12 to 16 rows to the ear. The plants are six to seven feet tall, strong and vigorous, producing two or more ears; usually a few days later than our Improved Golden Bantam. The grains are very tender and sweet; in fact, we consider it the sweetest of the white varieties. Pkt. 10c; ½ lb. 20c; lb. 35c. E. or F., lb. 30c; 10 lbs. @ 24c; 25 lbs. @ 21c; 100 lbs. @ 19c.

GOLDEN WEST—Large, long ears containing eight rows of large, sweet, golden grains. The stalks grow much taller than our improved Golden Bantam. The plants are very productive usually bearing two ears to the stalks. Matures about one week after Improved Golden Bantam. Pkt. 10c; ½ lb. 20c; lb. 35c. E. or F., lb. 30c; 10 lbs. @ 22c; 25 lbs. @ 20c; 100 lbs. @ 19c.

GOLDEN GIANT—Large, golden yellow ears of high quality. A cross between Howling Mob and Golden Bantam. The stalks grow nearly as tall as Howling Mob with ears almost as large. Matures about 10 days after Improved Golden Bantam. Prices same as Golden West.

BANTAM EVERGREEN—Extra large ears on strong, tall stalks. Matures about two weeks after Improved Golden Bantam. The quality is fine and is the ideal yellow sweet corn for late markets. Prices same as Improved Golden Bantam.

YELLOW SWEET CORN COLLECTION

We offer one packet each of Improved Golden Bantam, Golden West, Golden Giant and Bantam Evergreen for 30c postpaid. This makes a splendid succession if planted at the same time. We also offer one half pound of each for 70c postpaid.

OREGON EVERGREEN—While this is not a first early corn, this strain is considerably earlier than Stowell's Evergreen, which in general character it resembles. Pkt. 10c; ½ lb. 20c; lb. 35c; postpaid. E. or F., lb. 30c; 10 lbs. @ 24c; 25 lbs. @ 21c; 100 lbs. @ 19c.

Gill's Improved Golden Bantam

***GILL'S IMPROVED GOLDEN BANTAM**—Superior to the original Golden Bantam in quality and nearly twice the size. Nearly all ears carry 12 rows of deep rich golden yellow kernels, set close upon the cob. Do not compare this with the original strain, as it is far superior in every respect, and any gardener who places this corn on the market will command better sales and prices.

It has no superior for market, table, canning or drying. We carry the exclusive seed of this improved strain. Remember, we are improving this variety every year and if you wish the up-to-date selection, buy direct from us. We have received many letters of praise for this corn and its good qualities represent 18 years of earnest work on our part. Many of our customers will have nothing else. Pkt. 10c; ½ lb. 20c; lb. 35c. E. or F., lb. 30c; 10 lbs. @ 25c; 25 lbs. @ 22c; 100 lbs. @ 20c.

***GILL'S PORTLAND MARKET**—We have discontinued this variety from our catalog but we still have seed to offer. Write for prices.

FIELD CORN

The growing of field corn has now reached a stage where it is past being an experiment, and with acclimated seed, there is no difficulty to obtain success. We do not and will not handle any but local grown seed of Dent corn, and our customers may feel sure of getting the right seed. Write for prices on quantities.

*ALBANY HYBRID—A cross between Minn. No. 13 and Pride of the North. It has the earliness of the No. 13, and the deep grain and small cob of the Pride of the North. It has been given careful attention in selection and is, we believe, one of the finest sorts for grain or ensilage. This variety has proved so satisfactory that we have discontinued other sorts. It is exceptionally early and produces large, heavy ears on tall stalks. It is ideal for ripe grain or ensilage. Large pkt. 10c; lb. 30c; E. or F., 25c; 10 lbs. @ 14c; 100 lbs. @ 10c.

POP CORN

*WHITE RICE—The best commercial sort. Sharp pointed grains. Our seed is fully acclimated. Pkt. 10c; 1/2 lb. 20c; lb. 30c. E. or F., 25c; 10 lbs. 20c.

BLACK BEAUTY—Large blunt, black grains on ears 6 to 8 inches long. The grains pop white and are of fine quality. It pops extra large flakes. Pkt. 10c; 1/2 lb. 20c; lb. 35c.

AUSTRALIAN HULLESS—Small, sharp pointed, white grains with very thin skin. Pkt. 10c; 1/2 lb. 20c; lb. 35c.

KALE, EDIBLE

Culture, same as that of cabbage.

TALL GREEN SCOTCH CURLLED—Tall and finely curled leaves. Pkt. 10c; oz. 20c; 1/4 lb. 45c; lb. \$1.50 postpaid.

DWARF GERMAN—Finely curled, low growing. Pkt. 10c; oz. 20c; 1/4 lb. 45c; lb. \$1.50.

GEORGIA COLLARDS—Valuable greens for table use and for stock feeding. They grow 2 or 3 feet tall and form loose, open, cabbage-like heads. They withstand our winters and can be used all winter long. Pkt. 10c; oz. 20c; 1/4 lb. 45c; lb. \$1.50.

KALE FOR FEEDING

JERSEY KALE—Large, heavy, massive plants with giant broad leaves. It gives enormous production and is becoming very popular for feeding. Pkt. 10c; oz. 20c; 1/4 lb. 50c; lb. \$1.50. E. or F., 3 lbs. @ \$1.25.

*GIANT MARROW—Enormous plant on tall, heavy stalks. The leaves are very broad and heavy and combined with the large stems, often 3 inches in diameter, make a heavy yield of feed. Pkt. 10c; oz. 25c; 1/4 lb. 90c; lb. \$3.00.

*SELECT THOUSAND HEADED—A fine strain and very popular for feeding. Pkt. 10c; oz. 15c; 1/4 lb. 30c; lb. 75c; E. or F., 3 lbs @ 65c.

PARSLEY

TRIPLE MOSS CURLLED—Dark green moss-like leaves. Pkt. 10c; oz. 20c; 1/4 lb. 40c; lb. \$1.00.

HAMBURG or TURNIP ROOTED—The roots resemble small parsnips although shorter. For flavoring soups and stews. Pkt. 10c; oz. 20c.

MUSHROOM

Pure culture Mushroom Spawn. Per brick, 40c; postpaid. E. or F., 35c brick.

KOHL RABI

EARLY WHITE VIENNA—The best for table use. Kohl Rabi should be more grown, as it is a delicious vegetable, cooked like turnips. Transplant like cabbage in July; rows 3 feet wide and 1 foot in rows. Pkt. 10c; oz. 25c; 1/4 lb. 80c; lb. \$2.50.

CUCUMBERS

Plant 4 feet each way in rich, loamy soil, from April 15 to April 1, 8 to 10 seeds to hill; thin to two good vines. Cover seeds one inch deep and press firm.

THE VAUGHN—By far the best slicing cucumber to date for market purposes. The cucumbers are long, straight and even diameter. When ready for slicing they will average a foot long and about one and half inches in diameter. They are a deeper green than Davis Perfect and the quality is extra fine. Seed crop very short. Pkt. 20c; oz. 50c; 1/4 lb. \$1.50; lb. \$5.00.

DAVIS PERFECT—A strong, vigorous grower, producing heavy crops of uniform, long, dark green cucumbers. When placed on the market they hold their color and do not turn yellow like most other varieties. It is especially adapted for slicing and is equally fine for garden or greenhouse. Very popular with market gardeners. Pkt. 10c; oz. 20c; 1/4 lb. 45c; lb. \$1.35.

EARLIEST OF ALL—Claimed to be the earliest variety. An exceptionally vigorous grower that produces immense crops of handsome cucumbers of medium length, desirable for slicing and pickling. Pkt. 10c; oz. 20c; 1/4 lb. 40c; lb. \$1.35.

ARLINGTON WHITE SPINE—There are many strains of White Spine, but we consider this the best. Pkt. 10c; oz. 20c; 1/4 lb. 40c; lb. \$1.35.

WHITE WONDER—Large, creamy white cucumbers of mild flavor. Pkt. 10c; oz. 25c.

IMPROVED LONG GREEN—Extra long and large; fine for slicing, pickling or for sweet pickles when ripe. Pkt. 10c; oz. 20c; 1/4 lb. 40c; lb. \$1.25.

BOSTON PICKLING—The most popular pickling sort. Medium sized and vigorous. Pkt. 10c; oz. 15c; 1/4 lb. 30c; lb. \$1.00.

SMALL GHERKIN—A small prickly variety used only for pickles. Cucumbers small and round oblong. Pkt. 10c; oz. 25c.

LEMON CUCUMBER—Resembles a lemon, both in color and form. A splendid sort, either for pickling or slicing. Pkt. 10c; oz. 25c; 1/4 lb. 60c.

PARSNIPS

Culture same as carrots, except time of planting, which should be about May 1st. The seed offered is our own growing, crop of 1925.

*GILL'S TENDER HEART—On account of the superior quality of this parsnip, our family has retained the seed annually for over thirty years. Unlike other parsnips, the heart is tender, never tough; roots are smooth, hollow crown, thick and heavy at the top, tapering abruptly, making it easy to dig. We have the exclusive seed of this champion garden or market parsnip. Try this parsnip, for it is unequalled anywhere. Pkt. 10c; oz. 15c; 1/4 lb. 35c; lb. 90c. E. or F., lb. 80c; 5 lbs. @ 75c.

*GILL'S SUCCESS—Longer roots than the Tender Heart variety and better adapted to market purposes, as it is not so thick at the crown and will bunch better. The smooth white roots cook tender and sweet. Pkt. 10c; oz. 15c; 1/4 lb. 35c; lb. 95c. E. or F., lb. 85c; 5 lbs. @ 80c.

LEEK

MONSTROUS CARENTAN—Culture same as onions. Large size. The best. Pkt. 10c; oz. 25c; 1/4 lb. 75c; lb. \$2.35.

MUSTARD

GIANT SOUTHERN CURLLED—Large variety with fine curled leaves. Pkt. 10c; oz. 15c; 1/4 lb. 35c; lb. \$1.00.

Our practical experience in the market garden business, together with our constant contact with growers enables us to fill your requirements satisfactorily. Home gardeners also receive the same high quality seeds.

LETTUCE

Can be planted almost any time of the year. Give head varieties plenty of room, at least one foot apart each way. Cover one-half inch deep.

PRICES ON LETTUCE SEED, unless otherwise noted are as follows, postpaid. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

NEW YORK (Wonderful or Los Angeles)—The most popular variety grown and equally good for market or home garden. It produces immense solid, brittle heads of splendid flavor with deep green exterior leaves while the interior leaves blanch very white. During the winter this sort is shipped to our markets from California but in the summer great quantities are shipped East from Oregon and Washington. Our strain of seed produces large firm heads, very uniform and with darker green leaves than that usually offered. Market gardeners are enthusiastic about our strain and we sell hundreds of pounds annually. In growing lettuce beware of poor seed as it often means crop failure. Many growers prefer 2 year old seed so we list both one year and 2 year. 1 year. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00; 1 lb. \$3.00. 2 year seed. Pkt. 10c; oz. 45c; $\frac{1}{4}$ lb. \$1.30; lb. \$4.00.

HANSON—A popular sort, producing large, firm heads of medium green color.

CRISP AS ICE—Heads uniform and compact, of a bronze red color, maturing very even. A beautiful lettuce for the table. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

ICEBERG—Produces large firm head very tender and brittle. Withstands hot weather better than most sorts. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.00.

BIG BOSTON—Extra hardy and suited for fall sowing. Plants large, leaves broad, comparatively smooth, with wavy edge, hard and crisp; color bright, light green, slightly tinged reddish-brown.

LOOSE LEAF LETTUCE

TOMHANNOCK—A beautiful, quick growing lettuce. Leaves large, bordered reddish brown; very tender and sweet.

GRAND RAPIDS—The standard hot-house lettuce for forcing also does fine in the open ground. Loose leaves of light green with fringed edges.

COS LETTUCE

EARLY WHITE SELF-FOLDING—Leaves yellowish white, crisp and tender; forms sugar loaf heads; bleaches better if tied. See prices above.

CHICKEN LETTUCE

A rough, tall loose plant for feed only. Grows 4 feet high and supplies abundant green feed. Fine tonic for laying hens. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

PEPPERS

Start plants in hot beds or in pots in a warm room in March. Transplant in open ground May 10 to 20, rows $3\frac{1}{2}$ feet wide, 2 feet in rows.

HARRIS EARLIEST—The earliest of the large peppers and exceedingly mild and sweet. It will mature ripe peppers two weeks ahead of Chinese Giant. It is ideal for those localities having short seasons and is also valuable for market where ripe, red peppers are in demand. It averages about $3\frac{1}{2}$ inches long and $2\frac{1}{2}$ inches thick. Pkt. 15c; $\frac{1}{2}$ oz. 60c; oz. \$1.00; $\frac{1}{4}$ lb. \$3.00.

PERFECTION PIMENTO—This bright scarlet variety has exceptionally thick meat and is the best for pimientos. Very mild and sweet. Pkt. 10c; $\frac{1}{2}$ oz. 40c; oz. 65c; $\frac{1}{4}$ lb. \$2.00.

CRIMSON GIANT—Extra large peppers, of beautiful crimson when ripe. Their large size makes them fine for stuffing. It ranks among the earliest and most prolific. Pkt. 10c; $\frac{1}{2}$ oz. 40c; oz. 65c; $\frac{1}{4}$ lb. \$2.00.

CHINESE GIANT—The largest of the mild red peppers and a favorite with gardeners. A little later than Crimson Giant. Pkt. 10c; $\frac{1}{2}$ oz. 45c; oz. 75c; $\frac{1}{4}$ lb. \$2.25.

CAYENE—Long, narrow pods; very hot. Pkt. 10c; oz. 65c.

Gill's Success Parsnip

WATERMELONS

Plant 8 to 10 seeds in hills 6x6. Thin to 2 best vines. Turn vines with the row. Plant May 1st to 20th. Fertilize heavy.

KLECKLEY SWEETS SPECIAL—This special strain is the result of careful selection. We supplied seed to many of the largest watermelon growers in the Northwest last season and they are well pleased with the results. This is an early sort, producing good crops of melons 18 to 20 inches long and 3 to 10 inches thick. The skin is dark green without markings and the flesh is exceptionally sweet. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

HUNGARIAN HONEY—A small round, thin-rind melon with rich, red flesh. Extra early and sure to ripen even in the coolest season. Seed very small and flesh exceptionally sweet. The best home melon for the Northwest. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

KLONDIKE—A melon of the finest quality being exceptionally sweet and fine. The flesh is very brittle and the fruit-oblong. It is a shy seeder hence the seed is expensive. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

PRESERVING CITRON

Red seeded oval fruits, used for preservings. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c.

CASABAS

GOLDEN BEAUTY—Bright yellow, about globular in shape and the first to ripen. They will mature in most localities where melons can be grown. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

We grow our own parsnip seed and it is fully acclimated. We recommend Tender Heart for home gardens and Success for market growers.

MUSK MELON

CULTURE—A rich loam is best, fertilized with well rotted manure and Garden Grow Fertilizer. Plant 4 by 6 feet, giving more room for larger varieties. Use 8 to 10 seeds to the hill; cover 1 to 1½ inches deep. When the first leaves appear thin to two plants. Turn the vines with the row to permit cultivation.

Prices—Unless otherwise stated prices are uniformly as follows: Pkt. 10c; oz. 20c; ¼ lb. 45c; lb. \$1.40.

*GOLDEN CREAM—This giant melon has proved a money maker for gardeners. To attain best success plant 6 x 6, for owing to its size it requires more room. The fruit is rather long, oval and very thick meatied. The skin is smooth, without ribs, and of a beautiful golden cream color with plenty of lighter colored netting. The flesh is a rich salmon and contrasted with the beautiful skin makes a sensation when placed on the table. This is an Oregon production and has 15 years selection behind it. The fruit matures very early and melons weighing 8 to 12 pounds are not uncommon. They are unusually firm and will stand shipping, while the quality is the best of any large melon we have seen. It is shy seeder. Oregon grown seed. Pkt. 15c; oz. 40c; ¼ lb. \$1.00; lb. \$3.75.

GOLDEN HONEY DEW—Same as the original Honey Dew in shape, texture and flavor, but the flesh is a rich golden salmon color.

Select Oregon Yellow Danvers

ONIONS

CULTURE—A rich loam is best, fertilized with well rotted manure and root crop fertilizer. Sow seed in February or March if the condition of the ground and the weather will permit. Sow with drill in rows 14 to 16 inches apart; cover half-inch deep. Hoe with wheel hoe as soon as they are up, but do not more than scalp the surface, as onions do not stand deep cultivation. Thin them to about 8 plants to the foot. It requires about 3 to 4 lbs. of seed to the acre. Onions are peculiar, in that they do well year after year on the same ground.

Seed of the white onions can be planted in the Spring, Summer or Fall for green onions. Those planted in the Fall, about September 1st, will produce green onions for early Spring use. These white onions from seed are very mild.

*SELE. T OREGON YELLOW DANVERS—This variety is largely planted through the Northwest. The onions are large, nearly globe shaped with small necks; early and heavy yielders. The main variety planted in Oregon and a splendid keeper. The color is a rich coppery yellow. We offer seed of our own growing from selected bulbs. Pkt. 10c; oz. 40c; ¼ lb. \$1.15; lb. \$4.00.

LARGE RED WETHERSFIELD—Large, flattened onions; purplish red. Pkt. 10c; oz. 40c; ¼ lb. \$1.15; lb. \$4.00.

PRIZETAKER—Extra large onions of mild flavor; globe shaped with small necks; color bright straw. Pkt. 10c; oz. 45c; ¼ lb. \$1.25; lb. \$4.50.

AUSTALIAN BROWN—An extra early sure cropping variety, with long keeping qualities. A sweet, mild onion, with crisp, white flesh, covered with bright reddish-brown skin. Largey used for growing onion sets. Pkt. 10c; oz. 40c; ¼ lb. \$1.15; lb. \$4.00.

HONEY DEW (Green Flesh)—A distinct new melon, claimed to be a cross between a casaba and muskmelon. Shape round oblong and color nearly white, flesh thick and extra sweet. Can be stored for late fall use, much like a casaba.

HEARTS OF GOLD—An orange fleshed melon of uniform medium size and ideal for shipping. The vines are vigorous, blight resistant and very productive. The rind is very firm and densely netted. The flesh is thick, high colored and delicious.

EDWARD'S PERFECTO—Of medium size, remarkably uniform and especially adapted for shipping. The fruit is nearly round with hard grey netting and the seed cavity is very small. The flesh is extra thick and salmon colored, shading to green near the rind. The quality is extra good and owing to its uniform size and shape it packs better than most sorts.

EXTRA EARLY KNIGHT—An extremely early melon of very high quality and a good shipper. Deep green skin turning to golden at maturity with close grey netting and distinctly ribbed. Flesh thick and very sweet; green blending to light pink at center.

SALMON TINTED POLLOCK (10-25)—Considered the finest type of commercial melon and very much in demand by shippers. Meat of fine texture, deep and firm. One-half of meat next to rind is green while inner half is a rich salmon. Exceptionally good flavor and very attractive.

EMERALD GEM—The finest for the home garden on account of its high quality and extreme earliness. The dark green fruit is of medium size, flattened at both ends. The flesh is thick, sweet and melting, with a rich spicy flavor. It will ripen where others fail and nearly every melon is extra fine.

BURRELL GEM SPECIAL—We offer a strain that has had special selection for many years. We supply many of the largest growers in the Northwest. It is a splendid shipper; 4 to 6 inches in diameter; seed cavity small, flesh firm and reddish orange. Probably more planted for market in Oregon and Washington than any other. Very high quality.

JAPANESE GREEN ONION — This wonderful green onion is grown from seed by Japanese for winter use. They plant it early in the Spring and cultivate all summer, hillling it up with earth in the fall. The white meat of the bleached stalk is often a foot long and one inch thick. It is harvested all winter. Pkt. 20c; ½ oz. 40c; oz. 75c.

WHITE ONIONS

SOUTHPORT WHITE GLOBE—Handsome globe shaped white onions noted for keeping qualities a d heavy productions. Highly recommended as a green bunching onion for spring and summer use. Pkt. 10c; oz. 50c; ¼ lb. \$1.35; lb. \$5.00.

*WHITE PORTUGAL or SILVERSKIN—A valuable medium early sort of good quality with flattened shape and clear white skin. Extensively planted by gardeners for green onions and is harder than most sorts to resist frosts. Pkt. 10c; oz. 40c; ¼ lb. \$1.15; lb. \$4.00.

MAMMOTH SILVER KING—The largest of the White Onions, often 4 to 5 inches across. The skin is silvery white and the flesh is tender and mild. The bulbs are rather flat. Can also be used for green bunch onions. Imported seed. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.50.

GIANT WHITE ITALIAN TRIPOLI—Immense size; white and flat; of quick growth and mild flavor. Often grows 3 to 4 inches in diameter. This variety is good for green bunch onions. Imported seed. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.50.

WHITE QUEEN—A small, early pickling onion with round flat shape. Also used for growing white sets and green bunch onions. When the bulbs have nearly reached maturity they are sold for boiling. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 90c; lb. \$3.00.

ONION SETS

***BOTTOM SETS**—Small onions grown from seed planted too thickly to reach mature size. They produce green onions in a short time, or if left to grow will produce nice large dry onions earlier than those grown from seed. $\frac{1}{2}$ lb. 15c; lb. 25c; postpaid. E. or F., lb. 20c; 10 lbs. @ 18c.

SHALLOTS—Desirable for bunching and early crop. The smallest sets make large bulbs, but the larger ones produce a cluster of medium sized bulbs. Flesh white and mild. $\frac{1}{2}$ lb. 20c; lb. 35c.

POTATO SETS—Also called Bottom Multiplier. $\frac{1}{2}$ lb. 25c; lb. 45c; postpaid.

OKRA

EARLY DWARF GREEN—Very productive of short, deep green pods; extra early. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c.

It will pay you to use fertilizers on your garden. See our list on Pages 17 and 18.

Improved Telephone Peas

GARLIC

***LARGE FRENCH**—This giant variety will yield nearly double the common kind. Plant the sets very early in the spring. $\frac{1}{2}$ lb. 30c; lb. 50c.

GARDEN PEAS

CULTURE—Plant as early as the ground can be worked in the Spring. Peas will not reach perfection if planted after May 1st, although they will make a fair crop. They should be well rooted before warm weather begins. If planted during February and March they will mature before the aphis get started. Our Northwest grown pea seed is acclimated and will give better results.

PRICES ON PEA SEED—Unless otherwise noted. Pkt. 10c; $\frac{1}{2}$ lb. 20c; lb. 35c; postpaid. E. or F., lb. 30c; 5 lbs. @ 25c; 50 lbs. @ 23c; 100 lbs. @ 22c.

EARLY VARIETIES

***WORLDS RECORD**—An improved Gradus, being earlier and more dwarf; pods slightly larger, containing 7 to 9 peas of high quality. Darker green pods. Height 2 feet. One of the best sorts.

***GRADUS**—A large, deep green podded sort popular with gardeners. It matures extra early and is quite productive.

***EARLY MORN**—The peas and pods are equal in size to the Telephone, and mature along with Gradus. The peas are dark green and very sweet, making them one of the best for home use and canning. The vines, which grow about four feet high, are very strong and vigorous, and produce heavy yields.

***SURPRISE**—The earliest wrinkled pea; fully as early as Alaska. Vines 2 feet, pods about the size of American Wonder and fully as sweet flavored as that variety. Market gardeners received fancy prices for these peas last season, and they are enthusiastic about it. 7 to 10 days earlier than Gradus. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c. E. or F., lb. 35c; 5 lbs. @ 30c.

***ALASKA, or EARLIEST OF ALL**—Extra early, hardy, smooth seeded sort; 2 $\frac{1}{2}$ feet high. We recommend Surprise in its place.

***LITTLE MARVEL**—Superior to American Wonder with larger pods and only a few days later. Flavor fully as good. One of the finest dwarf peas.

***LAXTONIAN**—Also called Blue Bantam. Enormous pods, well filled on dwarf vines. We recommend this new pea very highly. It is the ideal pea for those who wish large pods on dwarf vines. Peas extra sweet and dark green. This sort has become very popular with market gardeners. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c. E. or F., lb. 35c; 5 lbs. @ 32c; 50 lbs. @ 29c; 100 lbs. @ 28c.

***THOMAS LAXTON**—Similar in growth to Gradus, but the pods are darker green and square at the ends. Exceptionally rich sweet flavor; flowers later than Gradus and yields heavier.

***AMERICAN WONDER**—Dwarf, very sweet.

SECOND EARLY VARIETIES

***IMPROVED TELEPHONE** (Dark green or Alderman strain)—This strain is more productive and the pods are deeper green. The pods are larger and the vines more vigorous producing enormous crops of large pods containing 9 to 11 peas. The vines grow 4 to 6 feet tall. The peas are large and remarkably sweet.

***DWARF TELEPHONE**—Strong plants 2 $\frac{1}{2}$ feet high. Large, long pods containing 8 to 9 dark green peas of finest quality.

LATE VARIETIES

***IMPROVED STRATAGEM**—Medium vines, producing immense pods, filled in with large, dark green peas of finest quality. Strong, stocky vines, 2 $\frac{1}{2}$ feet high. Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 40c. E. or F., 5 lbs @ 30c; 50 lbs @ 27c.

***QUITE CONTENT**—Vigorous vines 5 to 8 feet tall, producing enormous deep green pods containing 9 to 11 large, sweet peas.

***GIANT SUGAR** (Edible Pods)—The large broad pods are 5 to 6 inches long and are cooked like snap beans. Vines grow 5 to 6 feet tall. Pkt. 1c. $\frac{1}{2}$ lb. 25c; lb. 45c. E. or F., lb. 40c; 10 lbs. @ 35c.

Proper fertilizers when correctly applied reduce the number of culms and bring earlier maturity. Let us assist you with fertilizer problems.

PUMPKIN

Plant May 10 to 20 in rows 10 feet wide and 8 feet in the row; about 8 or 10 seeds to the hill; thinning to two good plants. Turn vines with the row to permit cultivation. Use 200 lbs. Utah land plaster to the acre, plowing it in; also 750 to 1000 lbs. Garden Grow fertilizer.

*ORANGE WINTER LUXURY—This improved strain of our own introduction is far better than the original. The skin, a rich golden orange, is covered with a fine netting while the meat is very thick, fine grained and of rich golden yellow. It is by far the best pumpkin. Simply cook it done and it is ready for use in making pies. It requires less sugar and eggs than other varieties. Extra early and of medium flattened shape. A splendid keeper that has no equal in quality or appearance. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

*CONNECTICUT FIELD, or JACK O'LANTERN—The common field pumpkin grown for stock feeding and jack o'lanterns. Rich orange colored skin. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

*SMALL SUGAR—Rather round fruit of small size, 5 to 7 inches in diameter. Smooth skin of bright orange color. Fine quality for pies. Early maturity. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.15.

KING OF THE MAMMOTH—The giant pumpkin; specimens have been grown weighing 200 pounds. Fruit round or flattened, skin salmon orange, flesh thick and bright yellow. For exhibition and feeding. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 60c; lb. \$1.75.

Orange Winter Luxury Pumpkin

SALSIFY OR VEGETABLE OYSTER

*MAMMOTH SANDWICH ISLAND—A good sort and most generally planted. Cultivate same as carrots. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

POTATOES

CULTURE—Plant early kinds as early as the ground will work. Late varieties May 20 to June 20. Rows $\frac{3}{2}$ feet wide, 20 inches in row. Cut to one or two eyes.

We are often able to quote on certified seed potatoes. If interested write us. Certified seed will produce 50 to 100 per cent better crops and justifies the higher cost. Let us give you fertilizer suggestions.

*EARLIEST OF ALL—We consider this the best all around first early potato. It produces heavy yields of uniformly smooth, white potatoes, maturing two weeks ahead of Early Rose. The cooking qualities are excellent.

*NETTED GEM—Called by some the Russet Burbank. Long shaped tubers, covered with a fine netting. They are of splendid texture and noted for baking qualities.

*AMERICAN WONDER—Similar in shape to the Burbank, but eyes are slightly deeper and skin is not quite so white. A very heavy yielder.

*BRITISH QUEEN—A vigorous, drought resisting sort, producing enormous crops of smooth shallow-eyed potatoes. Tubers white and of good quality.

*EARLY ROSE—The old favorite, true seed.

*BURBANK—A standard and popular sort, produces heavy yields on good soils.

SWEET POTATOES

CULTURE—Set out in rows four feet apart and 15 inches apart in the row, about May 15th to June 1st. Use sandy loam soil in a warm location. Acclimated fresh dug plants are very essential.

PRICES ON PLANTS—Strong healthy plants of our own growing. Doz. 50c; 3 doz. \$1.00; 100 @ \$2.50 postpaid. Write for prices on quantities.

NANCY HALL—Produces good sized tubers of medium length and quite thick in diameter. The flesh is of rich orange color and very sweet. They produced a nice crop here on our farm last season. It is more like a yam than a sweet potato.

JERSEY SWEETS—A popular commercial sort of true sweet potato. The tubers are large and of nice smooth appearance.

SUNFLOWER

*MAMMOTH RUSSIAN—This is one of the heaviest yielders and produces extra large heads, well filled with large, plump seed. Oz. 5c; lb. 30c. E. or F., lb. 25c; 10 lbs @ 15c lb.

POTATO PRICES

By mail, postpaid, at 20c per lb.; 3 lbs. for 40c. For quality, please write.

SAGE

Hardy perennials extensively used for seasoning. Pkt. 10c; oz. 55c.

RHUBARB

WAGNER'S GIANT—Large crimson stalks often one and a half-feet long and weighing very heavy. One of the best. Pkt. 15c; oz. \$1.50; $\frac{1}{4}$ lb. \$5.00.

RHUBARB ROOTS

RIVERSIDE GIANT—Extra large stalks of rich color and fine flavor. Four cuttings can usually be made in a season. Strong 1 year crowns with side roots. These will establish themselves quickly and practically all will grow. Each 20c; doz. \$1.50; 100 @ \$7.50 prepaid. Write for prices on quantities.

VEGETABLE ORANGE

Grows similar to a muskmelon; small-sized, round-shaped, orange-colored fruit; fine for sweet pickles and preserves; yields heavy. Pkt. 10c; oz. 50c.

TOBACCO

CONNECTICUT SEED LEAF—This is one of the earliest maturing sorts for our Northwest climate. Pkt. 10c; oz. 40c.

See special seed and dahlia offers inside back cover.

RADISH

CULTURE—Radishes can be planted almost the year around, except during cold winter months. They can be planted during the fall as late as October 15th. Fine radishes are then available during winter months.

PRICES ON RADISH SEED—Unless otherwise noted prices are uniformly: Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.00; postpaid. E. or F., 5 lbs. @ 75c; 10 lbs. @ 70c.

WHITE PEARL—The best of the white radishes; roots five to seven inches long; of a beautiful pearly white color. Stands fine without going woody. Similar in shape to White Icicle, but superior in quality. Flesh tender, crisp and sweet. It is the earliest of the long white radishes.

SAXA—A beautiful new forcing radish that has created a sensation where ever sold. It is good under glass or in the open ground. The roots are round and bright scarlet, resembling a bright red cherry. It averages one week earlier than Early Scarlet Turnip White Tipped and will stand in good condition just as long. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.25.

***EARLY SCARLET TURNIP, WHITE TIPPED**—We offer a very fine selection of our own growing. This is the most popular variety with gardeners and we sell tons of the seed. It matures very early and the beautiful roots of bright scarlet, tipped with white, are very attractive. The roots are of high quality, being mild and nutty in flavor. Be sure to try our seed.

***LONG BRIGHT SCARLET WHITE TIPPED**—We also grew seed of this variety last season from a selected strain. The roots are 4 to 5 inches long and of bright scarlet, tipped white. They are very attractive and mature about 7 to 10 days after Early Scarlet Turnip White Tipped. This variety is popular with gardeners.

WHITE ICICLE—A splendid white radish of long shape and with mild flavor.

CINCINNATI MARKET—An excellent radish of scarlet color; five to seven inches long; skin very thin, flesh crisp and brittle.

EARLY SCARLET GLOBE—Beautiful scarlet globe-shaped radish, of quick maturity and exceptionally fine flavor. Good market sort.

CRIMSON GIANT—A crimson, turnip shaped radish that combines large size with extreme earliness. A splendid radish that does not go pithy very soon.

RADISH COLLECTION

We will mail one packet each of the above 8 varieties of radish, worth 80c, for 50c postpaid.

Radish, Scarlet China

Mammoth Market Spinach

SPINACH

CULTURE—Sow in drills 16 to 20 inches apart; thin to 3 inches. For early spring use, sow in the fall or sow in early spring for later use. Fine fall spinach can be grown by planting seed August 20 to September 1, and winter spinach can be planted until October 15th.

PRICES ON SPINACH SEED—Unless otherwise noted prices are uniformly: Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 20c; lb. 50c postpaid. By E. or F., 10 lbs. @ 32c; 50 lbs. @ 30c.

***MAMMOTH MARKET or MAMMOTH WINTER**—This new giant prickly seeded sort has become very popular with gardeners for Spring, Summer and Fall cutting. The leaves are extra large, very heavy, fairly smooth and deep green in color. It is very slow to run to seed, making it valuable for gardeners. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 60c. By E. or F., 10 lbs. @ 35c; 50 lbs. @ 33c.

***KING OF DENMARK**—A splendid new spinach on account of its long standing qualities. The leaves are crumpled and deep green. It is claimed they will stand two weeks longer than other sorts before running to seed. Prices same as Mammoth Winter.

***IMPROVED THICK LEAF or VIROFLAY**—This variety is very popular and we have a fine strain of Northwest grown seed. The leaves are broad and smooth and of medium deep green. It will stand more cold weather than any other sort we have tested and is very popular for late Fall plantings which are to remain over Winter for early Spring cutting.

***VICTORIA**—A good, long standing sort, with large, thick, dark green leaves, slightly crumpled. Good for market or garden.

***SAVOY LEAVED**—An early sort generally used for fall sowing; leaves crumpled. A hardy, rapid grower.

NEW ZEALAND SPINACH

A good summer variety which resists the heat and can be cut throughout the season. It differs in appearance from the regular spinach but is prepared in the same manner. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.75.

WINTER RADISHES

SCARLET CHINA—Roots of bright scarlet color; fine quality. Sow in September for winter use.

LONG BLACK SPANISH—Long black winter radish. Sow in August.

WHITE CHINESE—Long white, stump rooted radish, always solid, crisp and mild.

JAPANESE NERIMA—This remarkable radish will grow over three feet long and weigh 10 to 15 lbs. each. If properly stored they will keep through the winter like rutabages. Plant about August 1st to 15th. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

SQUASH

CULTURE—Plant from May 10th to 20th in hills 10 feet apart, 8 to 10 seeds to the hill. Thin to two strong vines. Sow 200 pounds of land plaster to the acre and plow in. Write us for fertilizer hints.

*GILL'S GOLDEN DELICIOUS. (See front cover)
—We take much pride in offering this remarkable squash of our own origin and we believe it is destined to become very popular for canneries, market gardeners and home gardens. We have never grown a squash with such high quality as this and it has a very attractive appearance. It is the result of a cross between Boston Marrow and Delicious and retains the high quality of the Delicious and the beautiful color of Boston Marrow. The skin is a bright reddish-orange and the flesh is rich golden orange. The flesh is 2 to 3 inches thick and there is no green zone near the rind. It cooks extra dry, fine grained and sweet. Many of our friends say "it is better than a sweet potato." The skin is thin, without a hard shell but it is a fine keeper for winter use. On account of its high quality and attractive color it has created a sensation with canners and those who tested it claim it has the highest starch content of any variety they have tried. We could sell every pound of seed to canneries but we feel the public is now entitled to grow this delicious squash. Besides all its other fine qualities it is the finest squash for pies. It grows very vigorous and produces heavy crops. It takes many years to fix the color and type in a squash and there is apt to be a few dark colored specimens. The crop of 1925 showed about 2% but none of these were saved for seed. Seed we grew. Pkt. 20c; oz. 40c; $\frac{1}{4}$ lb. \$1.25; lb. \$3.75.

BABY HUBBARD or KITCHENETTE HUBBARD
—A small type of Hubbard of very uniform size and shape and which sets more fruit than the old Hubbard. They average about 6 to 8 pounds each. On account of their small size and heavy weight they are especially suited for crating. Their size is also better adapted to the average retail sale. We believe that this new type Hubbard will prove a splendid acquisition for market gardeners, and those who grew it last season are well pleased. Pkt. 15c; oz. 25c; $\frac{1}{4}$ lb. 60c; lb. \$2.25.

*DELICIOUS—An extra sweet, fine grained, dry cooking squash. Medium size, top shaped with greenish-black skin; flesh very thick, orange colored, with small seed cavity. Try this fine squash. Pkt. 15c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

Baby Hubbard Squash

*BANANA—This valuable squash is in great demand and we have secured a very fine strain which has been re-selected up to the highest quality. The squash usually measure, under good culture, from 3 to 4 feet long and are so even in diameter that they can be piled up like cord-wood. The exterior of the skin is a buff-orange color, while the meat is a rich orange. The meat is extra thick and of fine flavor. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

*TRUE HUBBARD — The standard squash and while we do not consider it equal to Delicious in flavor, it is a heavier yielder and is better known in the market. We have a true stock of seed carefully selected for color, shape and quality. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 45c; lb. \$1.35. E. or F., 5 lbs. @ \$1.15.

GOLDEN HUBBARD—Similar in size and shape to the Hubbard but of golden red color. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

BOSTON MORROW—Skin and flesh reddish yellow. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 35c; lb. \$1.00.

*TABLE QUEEN or ACORN—A miniature squash growing about 7 inches long and 4 to 5 inches thick. The color is deep green contrasted with orange and red where it rests on the ground. Very sweet and fine grained and suited for home or market. Very easy to grow. It is a splendid keeper for Winter use. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

MAMMOTH CHILI—A giant variety grown for stock feed and exhibition. Specimens have been grown weighing 150 lbs.; oblong shape with orange yellow color. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$1.75.

Table Queen Squash
SUMMER SQUASH

MAMMOTH SUMMER CROOKNECK — Grows larger than the common sort. Fine for summer use. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lbs. 45c; lb. \$1.25.

COCOZELLE or ITALIAN MARROW — Dark green when young, changing to lighter green as it matures. One of the earliest kinds and of high quality. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 45c; lb. \$1.50.

MAMMOTH WHITE BUSH SCALLOP—Easily large, pure waxy white skin; somewhat flattened in shape. Packet 10c; oz. 20c; $\frac{1}{4}$ 45c; lb. \$1.25.

RUTABAGAS

CULTURE—Sow in drills, 3 feet wide; thin to 6 inches apart. May be planted from June 15th to July 15th. The later sowings make roots of the best quality.

GOLDEN HEART — Rich yellow skin, clean and smooth like a turnip. Splendid quality for table use. Flesh light yellow. It matures extra early. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 40c; lb. \$1.10.

*IMPROVED PURPLE-TOP YELLOW—The best all around Rutabaga. Produces nice, smooth globe-shaped roots free from side roots. The best for table use and very rich and productive for stock feeding. It is early and will mature good roots planted late in the season. Selected seed. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. 75. By E. or F., 5 lbs. @ 70c.

SWEET RUSSIAN—One of the best white-meated Rutabagas. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 45c; lb. \$1.25.

TOMATOES

CULTURE—Plant seed in box inside or in hotbed from February 15 to March 1. Transplant May 10 to 20 in rows 6 feet wide and 5 to 6 feet in rows; use light loamy soil, well cultivated and fertilized.

GILL'S SELECTED EARLIANA — For sixteen years we have given personal selection to this strain and believe we now have the largest and smoothest first early tomato yet offered. The fruit is of bright deep red color, rather thick from stem to blossom and unusually solid. Our selections are making rapid and decided improvements in this variety and nearly all the fruit will pack number one grade. Owing to the fact that it is a shy seeder we must ask more for the seed than other sorts. Do not confuse this with the ordinary strains of Earliana. Reports from several large growers claim this is the best strain of Earliana they have tried. Pkt. 15c; $\frac{1}{4}$ oz. 40c; 1 oz. \$1.00; $\frac{1}{4}$ lb. \$3.00.

HILL SELECTED SEED—Pkt. 30c; $\frac{1}{4}$ oz. \$1.25; $\frac{1}{2}$ oz. \$2.25; oz. \$4.00.

PEPPER TOMATO—Claimed to be a cross between a pepper and a tomato, but we fail to recognize any pepper in the cross. However, we do claim it is one of the finest tomatoes we have ever tasted. Practically every fruit is smooth, running from globe to oblong shape, some of the fruit being slightly pointed. The fruit are exceptionally solid, containing very little seed. The fruit are red with a purplish tone and the sweetest of any we have seen, being unusually free from acid. It produces very heavy yields and is quite early. Pkt. 20c; $\frac{1}{2}$ oz. 60c; oz. \$1.00.

RED HEAD—An exceptionally fine, large, bright red variety, as early as Chalks Jewell, with large fruit nearly globe shaped; very solid and excellent for canning. Pkt. 10c; oz. 50c; $\frac{1}{4}$ lb. \$1.75.

BONNY'S BEST EARLY—Owing to its great uniformity this makes a popular tomato for packing. It yields heavy crops of bright scarlet tomatoes, which ripen about two weeks after the Selected Earliana. We carry an extra fine strain of this popular market gardeners' tomato. It is also popular for greenhouse growing. Pkt. 10c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; lb. \$3.50.

Gill's Select Earliana Tomato

CHALK'S EARLY JEWEL—A reliable sort; while larger fruited than Bonny's Best, it is not quite so uniform in shape; a heavy yielder of good flavored fruit. Pkt. 10c; oz. 40c; $\frac{1}{4}$ lb. \$1.15; lb. \$3.50.

DWARF STONE—Tree type plants, producing large, smooth, meaty fruit of bright red color. Pkt. 10c; oz. 45c; $\frac{1}{4}$ lb. \$1.25.

PEAR TOMATOES—Popular for preserves and mature heavy yields quite early. We can supply both red and yellow. Pkt. 10c; oz. 50c.

GROUND CHERRY or HUSK TOMATO—Prized for preserves, pies and sauce. Will keep into the Winter. Fruit yellow. Pkt. 10c; oz. 50c.

TURNIPS

Sow broadcast from August 1 to September 1 for late turnips. Milan varieties can be sown as late as October 1.

PRICES ON TURNIP SEED—Unless otherwise noted prices are uniformly as follows postpaid: Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. 90c. By E. or F., lb. 80c; 5 lbs. @ 75c.

***EXTRA EARLY WHITE MILAN**—Among the earliest; roots clear white; smooth, flat and good quality. The best for early planting and late Fall sowing. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 40c; lb. \$1.15.

Turnip Purple Top White Globe

EXTRA EARLY PURPLE TOP MILAN—Similar to Extra Early White Milan except the roots are flatter and are attractive purple red on the upper portion. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 40c; lb. \$1.15.

EARLY SNOWBALL—An extra early, round turnip, snow white, crisp and solid.

WHITE EGG—A quick growing, egg shaped, smooth, pure white variety with flesh very sweet, firm and mild.

***POMERANIAN WHITE GLOBE**—A large globe shaped, smooth, white turnip. Good either for stock or table; resists the worms the best. One of the best keepers.

***PURPLE TOP WHITE GLOBE**—The best all around turnip for Fall and Winter use. Its beautiful color, pure white with purple top, combined with its smooth globe shape, fine sweet flavor and its wonderful productiveness, put this turnip in the top class for market or home use.

COWHORN—A large, long-rooted, white turnip, largely used for stock feeding.

YELLOW FLESHED TURNIPS

***ORANGE JELLY or GOLDEN BALL**—The best yellow sort for market or family use. Root medium sized, round and smooth, with yellow skin and flesh. One of the best for Winter keeping.

PURPLE TOP YELLOW ABERDEEN—This is largely grown for stock feeding. The roots are yellow with purple top, the flesh yellow and of fine texture. A fine keeping sort.

PETROWSKI—The sweetest and earliest. Rather flat roots with smooth, deep orange yellow skin. Flesh light orange. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 35c; lb. \$1.00. E. or F., 5 lbs. @ 85c lb.

VEGETABLE PLANTS

500 PLANTS WILL BE SUPPLIED AT THE 1000 RATE

EARLY CABBAGE—Grown in the open ground and wintered over. Good, strong, healthy plants ready January 1st to April 15th.

EARLY JERSEY WAKEFIELD, LARGE WAKEFIELD, GILL'S OREGON BALL HEAD and DANISH ROUND HEAD—Doz. 25c; 3 doz. 50c; 100 @ \$1.25; postpaid E. or F., 100 at \$1.00; 1000 @ \$4.25; 5000 @ \$4.00 per 1000.

EARLY CAULIFLOWER—Grown in frames. Ready March 1st to April 15th.

EARLY SNOWBALL—Doz. 40c; 3 doz. 80c; 100 @ \$2.00; postpaid.

LATE CABBAGE—Well hardened plants grown in open. Ready June 10th to September 15th.

GILL'S OREGON BALL HEAD, DANISH ROUND HEAD, GLORY OF ENKHUISEN, ALL HEAD \$1.00; postpaid. E. or F., 100 @ 75c; 1000 @ \$3.50; 5000 @ \$3.00 per 1000.

LATE CAULIFLOWER—Grown in open. Ready June 20th to August 15th.

VEITCHES AUTUMN GIANT, MAM. WHITE BROCCOLI, ST. VALENTINE BROCCOLI—ALL SEASON—Doz. 25; 3 doz. 60c; 100 @ \$1.50; postpaid. E. or F., 100 @ \$1.25; 1000 @ \$4.50.

BRUSSEL SPROUTS—Ready July 1st to August 15th. Prices same as late cabbage.

KALE PLANTS—Grown in open. Ready June 20th to August 15th.

TALL SCOTCH CURLLED, DWARF GERMAN, JERSEY KALE, GIANT MARROW KALE, GEORGIA COLLARDS, SELECT 1000 HEADED KALE—Same prices as late cabbage plants.

PEPPER PLANTS—Ready May 1st to June 15th.

CHINESE GIANT, PIMENTO, HARRIS EARLIEST—Doz. 40c; 3 doz. 80c; 100 @ \$2.00; postpaid. E. or F., 100 @ \$1.75; 1000 @ \$15.00.

TOMATO PLANTS—Frame or greenhouse grown. Ready April 15th to June 15th.

GILL'S SELECTED EARLIANA, BONNY'S BEST and PEPPER TOMATO—Doz. 50c; 3 doz. \$1.00; 100 @ \$2.50; postpaid. For quantity please write.

CELERI—Field grown, commercial size.

GOLDEN SELF BLANCHING—Doz. 25c; 3 doz. 60c; 100 at \$1.50 E. or F., \$6.00 per 1000. Ready June 1st to August 1st.

GOLDEN SELF BLANCHING—Transplanted. Prices same as pepper. Ready March 15th.

GRAIN SEEDS

PRICES vary so much, we give only small lot prices, postpaid. If interested, write us and we will quote prices, or you may remit what you desire and we will fill the amount according to market prices.

SEED OATS

OREGON HULLESS—A splendid branching oat, early and a heavy yielder that threshes entirely free from hulls. Grow some of this and make your own oatmeal. Per lb. 25c; 3 lbs. 60c; postpaid.

OREGON ECLIPSE—Side oat. Produces immense yields of plump, heavy, thin-hulled, white oats of finest quality. Lb. 15c; 3 lbs. 35c; postpaid.

OREGON CLIMAX—Tree oat. A very hardy, early oat with large, white, plump grains with thin hulls. Withstands freezing or drouth to an unusual degree. Lb. 15c; 3 lbs. 35c; postpaid.

GRAY WINTER, SWEDISH RED—And other sorts. Lb. 15c; 3 lbs. 35c; postpaid.

SEED WHEAT

MARQUIS—Earliest and heaviest yielding hard spring wheat. Hardy and vigorous and fine for milling. Lb. 15c; 3 lbs. 35c.

BLUE STEM (Spring), LITTLE CLUB (Spring), RED CHAFF (Spring), FORTY FOLD (Winter), and TURKEY RED (Winter), FEDERATION (Spring). Each at Lb. 15c; 3 lbs. 35c; postpaid.

SEED BARLEY

WHITE HULLESS or BALD—Early spring sort, beardless, with heavy, plump grains. Heavy yielder with high feed value.

BLACK HULLESS—Good either for fall or spring. Extra heavy yielder. The best for fattening stock.

BEARDLESS—Practically free from beards, and extra early. Yields heavy and is popular for hay.

HANCHEN. Common Six Row and other sorts.

PRICES—All barley, Lb. 15c; 3 lbs. 35c. Write for quotations on quantities.

MISCELLANEOUS FIELD SEEDS

ALL PRICES QUOTED POSTPAID, up to and including the fourth zone, beyond this add postage to cover the difference between the fourth zone and your zone. Write for prices on quantities.

SUDAN GRASS—A forage plant of the sorghum family which responds to corn culture. In drills use 3 to 4 pounds and broadcast 15 to 20 pounds. $\frac{1}{2}$ lb. 25c; lb. 45c. Write for prices on quantities.

VETCH

Write for Prices on Quantities

COMMON—For hay sow equal weight mixture of vetch with oats, wheat or rye at rate of two bushels per acre. Sow in fall or early spring. Lb. 20c; 3 lbs. 35c.

HAIRY or WINTER VETCH—Thrives on poor, arid, sandy soils, and can be used in mixtures. Lb. 30c; 3 lbs. 75c postpaid.

Out Door Cabbage Plants

HUNGARIAN VETCH—Practically aphis resistant. Heavy Cropper. Lb. 20c; 3 lbs. 35c postpaid.

FIELD PEAS

BLUE BELL—Hardy dwarf sort with deep green peas, even after ripening. Lb. 15c; 3 lbs. 40c.

CANADIAN—Lb. 15c; 3 lbs. 40c.

MILLET

*HOG MILLET—Rapid growing large seeded variety and valuable for hogs. Lb. 15c; 3 lbs. 40c.

GOLDEN MILLET—Lb. 15c; 3 lbs. 40c.

BUCKWHEAT

JAPANESE—Lb. 15c; 3 lbs. 35c.

SILVER HULL—Lb. 15c; 3 lbs. 35c.

OTHER FIELD CROPS

ARTICHOKE—White Jerusalem. Lb. 15c; 3 lbs. 35c. E. or F., 100 lbs. \$3.25.

CHEAT SEED—Lb. 15c; 3 lbs. 35c.

COW PEAS—Whip-Poor-Will. Lb. 20c; 3 lbs. 50c.

EMMER—Lb. 15c; 3 lbs. 35c.

FETERITA—Lb. 15c; 3 lbs. 35c.

FLAX—Lb. 20c; 3 lbs. 50c.

KAFFIR CORN—Lb. 20c; 3 lbs. 50c.

RAPE—DWARF ESSEX. Lb. 25c. E. or F., lb. 20c; 10 lbs. @ 17 lb.

RYE—COMMON BEARDED. Winter. Lb. 15c.

RYE—ROSEN. Lb. 15c; 3 lbs. 35c.

SPRING RYE—Lb. 15c; 3 lbs. 35c.

SUGAR CANE—EARLY AMBER. Lb. 20c.

GRASS SEEDS FOR FIELD AND PASTURE

We can supply various grasses such as KENTUCKY BLUE GRASS, CANADIAN BLUE GRASS, ENGLISH RYE GRASS, ITALIAN RYE GRASS, TIMOTHY, ORCHARD GRASS, RED TOP, TALL MEADOW OAT GRASS, MEADOW FESCUE, MESQUITE. We can also supply pasture mixtures. State nature of your soil and requirements.

PRICES are so much subject to change we do not quote them here, but will be glad to mail samples and prices on request. Kentucky Blue Grass and English Rye Grass are priced in the list of Lawn Grasses. IF CUSTOMERS DESIRE THEY CAN MAIL US REMITTANCE AND WE WILL FILL THE AMOUNT AT MARKET PRICES WHEN ORDER IS RECEIVED.

CLOVER AND ALFALFA SEEDS

PRICES are usually changing throughout the season, so we do not quote them here, but will fill according to the market price when order is received. White Clover is priced in the Lawn Grass Section. Send us your list for prices.

We carry a stock of RED CLOVER, ALISKE CLOVER, WHITE CLOVER and SWEET CLOVER both yellow and white. We can supply MAMMOTH RED CLOVER and ALFALFA, COMMON, DRY LAND and GRIMM.

GRIMM ALFALFA—Exceptionally hardy, notwithstanding severe cold weather. Produces more and finer stems with more foliage. Earlier than other sorts and will grow on wet ground where other kinds fail. Our seed is genuine. Lb. 70c. E. or F., lb. 65c; 10 lbs. @ 60c lb. Write for prices on quantities.

HIGH GRADE LAWN GRASSES

WRITE FOR PRICES ON QUANTITIES

We supply grasses for golf courses. Let us figure with you.

Prices marked postpaid apply up to and including the fourth zone, beyond which send additional.

We specialize in high grade lawn grass seed. During the past few years we have supplied lawn seed for some of the largest institutions in the state. Whether it is a small lawn or a large one we can supply the seed and we will be glad to quote you either on mixtures or separate grasses. Many of the lawn grass mixtures on the market contain rye grass seeds. We consider rye grass too coarse and too rapid of growth to be included in mixtures and therefore do not use them in our mixtures. In estimating the ground to be planted figure one pound to 400 square feet of surface.

GILBRO SPECIAL—This special mixture is composed of the finest bladed grasses and are selected on account of their great endurance. It will make a soft, velvety lawn of uniform texture and appearance. Our Oregon lawn grass is extra fine, but if you wish a super-lawn mixture buy this. We offer it either with or without white clover. Please specify when ordering. Lb. 85c; postpaid. E. or F., lb. 80c; 10 lbs. @ 75c lb.

OREGON LAWN GRASS—Fine general mixture for lawns containing the finest leaved grasses in correct proportion. Mixed from deep-rooted grasses that will make a lawn that is green all season.

PRICE WITH WHITE CLOVER—Lb. 65c; postpaid. E. or F., lb. 60c; 10 lbs. @ 55c lb.

PRICE WITHOUT WHITE CLOVER—Lb. 60c postpaid. E. or F., lb. 55c; 10 lbs. @ 50c lb.

RED TOP—Valuable lawn grass for shady situations and low wet ground. Lb. 55c. E. or F., lb. 50c; 10 lbs. @ 45c.

CREEPING BENT—A very fine bladed grass which develops from creeping or jointed roots. Lb. \$1.30. E. or F., lb. \$1.25; 10 lbs. @ \$1.20.

KENTUCKY BLUE GRASS—Used extensively for lawns. Fancy seed, 21 lbs. per bushel grade. Lb. 60c; postpaid. E. or F., lb. 55c; 10 lbs. @ 50c lb.

BLUE GRASS and WHITE CLOVER—Well proportioned mixture. Lb. 70c. E. or F., lb. 65c; 10 lbs. @ 60c lb.

ENGLISH RYE GRASS—This is used for lawns by many gardeners, and if sown thickly will make a good hardy lawn. Especially desirable for large grounds and parks. Lb. 25c; postpaid. E. or F., lb. 20c; 10 lbs. @ 18c lb.

WHITE CLOVER—Some prefer to sow the pure white clover for lawns. It is exceptionally hardy. We carry a very high grade seed. Lb. 70c; postpaid. E. or F., 65c; 10 lbs. @ 60c lb.

COMMERCIAL FERTILIZERS

WRITE FOR PRICES STATING QUANTITY

Fertilizers are divided into two distinct classes, organic and mineral. The organic is represented by those fertilizers composed of blood, meat, bone, animal manures and leaf mold, straw, etc. They are not soluble in water and should be covered up in the soil so that decay will start. In the mineral class are Nitrate of Soda, Sulphate of Ammonia, Superphosphate, Potash, etc. These are soluble in water. Organic fertilizers are by far the best to use as they contain much humus and feed the plants in a natural way while most of the mineral fertilizers contain chemicals which are to certain degrees injurious to plant growth and they should be used judiciously and price and analysis being equal, should not be used at all.

Four plant foods are now considered necessary for properly balanced growth, these being nitrogen, phosphoric acid, potash and sulphur. The sulphur should be in the form of sulphate of sulphur and for commercial use this is best secured by the use of land plaster.

Nitrogen is especially necessary in leaf growth, phosphoric acid in seed, stalk and root, while potash lends color and flavor, also keeping qualities. Nitrogen is usually listed as ammonia.

To those who use fertilizer in quantity we recommend the purchase of straight ingredients, mixing them yourselves. Let us assist you with our suggestions. We believe we can save you money on your fertilizer purchases. It pays to buy fertilizer of high analysis as this gives a decided reduction in freight.

The analysis given will not vary with mixed brands but in the others the analysis varies in different lots and we will advise regarding these when quoting.

ANALYSIS EXPLAINED. The figures in analysis are as follows: First given, ammonia; second, phosphoric acid; third, potash. In comparing prices be sure to consider the analysis as it shows the real value of the product.

FERTILIZER SUGGESTIONS

To find the best fertilizer for any particular crop requires study and experiments, for soil and weather conditions must be taken into consideration. Then, too, the time of maturing of the crop is also a factor. We are in close touch with fertilizer problems and have made many tests on our own farm here. As a part of our service we will be glad to assist you with your fertilizer problems if you will write us telling of the nature of your soil and the kind of crops you intend to fertilize. Please state the amount of each crop you intend to fertilize.

ORGANIC FERTILIZERS

GILL'S GARDEN GROW—4-10-6. A complete general fertilizer suited for all around use in garden or orchard. Note the analysis is higher than most general fertilizers offered. This is mainly an organic fertilizer. Put up in 100 pound bags.

We also put this up in 10-lb. bags offered at 75¢ postpaid; up to and including the Third Zone. This is a splendid fertilizer for dahlias, gladiolus and all flowers, shrubs, lawns, etc.

TANKAGE—This is a by-product from slaughter houses and contains blood, meat and bone that has been cooked, dried and ground. The analysis varies much, running from 3 to 9 ammonia and 8 to 15 phosphoric acid. It contains no potash and for best results potash should be mixed with the tankage. It is one of the quickest acting of the organics and where earliness is desired we especially recommend it. We handle high grade tankage running 6% ammonia or better and in comparing prices be sure to consider the analysis. Put up in 100 pound bags.

FISH FERTILIZER—An organic made from fish. Most of the commercial product is sold as salmon meal and herring meal. It usually runs 6 to 14 ammonia and 8 to 14 phosphoric acid but no potash. For best results potash should be added. It is slower acting than tankage and is suited for crops that mature over a long season. 100 pound bags.

BLOOD MEAL—12 to 15 ammonia. An organic form of nitrogen and useful where a quick, healthy growth is needed. A valuable top dressing for young plants and flowers. It is useful for speeding up growth. Put up in 100 pound bags.

BONE MEAL—Usually 3-20-0. Slow acting but popular for greenhouses and lawns. Apply in Fall or Winter. Put up in 100 pound bags.

SHEEP GUANO—Usually runs 2-1-2. Dry ground sheep manure taken from covered sheds. It is ground and sacked in 100 pound bags. On account of its high humus content it is a valuable fertilizer. Our stock is exceptionally good. 100 pounds \$1.50 F. O. B. Portland. Write for ton lot prices.

MINERAL FERTILIZERS

NITRATE OF SODA—14 to 16 ammonia. Being soluble in water it is a valuable fertilizer for the winter months applied on such crops as spinach, mustard greens, early Spring cabbage, turnips, radishes, etc. It leaves an injurious residue in the soil and we do not recommend it for general main crop fertilizing. Put up in bags weighing 200 to 225 pounds, uneven weight.

SUPERPHOSPHATE—16 to 21 phosphoric acid. Some brands are light grey and others are dark, almost black. An economical fertilizer for grains, corn or any seed crop. Its use tends toward earlier maturity of fruits and vegetables.

POTASH—We can supply, MURIATE and SULPHATE potash. Muriate and sulphate usually run 50 to 57% soluble.

SULPHATE OF AMMONIA—Runs high in nitrogen and is better mineral form of nitrogen than nitrate of soda. Put up in 200 pound bags.

SULPHUR, AGRICULTURAL—Finely ground. This is now recognized as a successful fertilizer for alfalfa, corn, clover, etc.

AGRICULTURE LIME—Especially suited for using on acid soils.

LAND PLASTER or GYPSIUM—This contains sulphate of sulphur, which is now recognized as one of the four necessary plant food elements. Sulphate sulphur is the available form of sulphur for plant use. Put up in 100 pound bags.

OTHER FERTILIZERS

If you are interested in any special mixtures or brands which we do not list please write us as we can probably supply them. State the kind and quantity and we will quote you. Remember honest service with fertilizers is very important. That is the kind of service we strive to give our customers with everything we sell.

FLOWER SEEDS

GILL'S HIGH GRADE ASTERS

We aim to supply the very best Aster seed that varieties and types will be found in our list. Asters and every garden should have these wonderful types.

Sow seed in boxes inside or in frames, about February 25th to March 15th, and transplant during May. In ordering, simply say Crego White, Beauty Pink, etc. Splendid blooms can be obtained by planting the seed in the open ground, where they are to bloom, about May 1 to 15.

LATE BEAUTY—A new type with giant flowers produced on plants 2 to 3 feet high and on stems 18 to 24 inches long. They start blooming in September and last till frost. Their late maturity, large size and long, strong stems make this type a grand acquisition for florists and home gardens. WHITE, LIGHT BLUE, PEACH BLOSSOM, ROSE, LAVENDER, PURPLE, CRIMSON, MIXED. Pkt. 15c; $\frac{1}{8}$ oz. 40c.

EARLY BEAUTY MIXED—Earlier than the Late Beauty Asters and flowering along with Crego type. Characteristics same as Late Beauty. CRIMSON, LAVENDER, ROSE, PEACH BLOSSOM, MIXED. Pkt. 15c; $\frac{1}{8}$ oz. 40c.

CALIFORNIA GIANTS—This giant new class has the strong vigorous habit and long stems of the beauty type but has the Crego type of bloom. The immense flowers, often 5 to 6 inches in diameter, produced on long stems make them exceptional cut flowers and this class is sure to become popular. PEACH BLOSSOM, LIGHT BLUE, DEEP ROSE, DARK PURPLE, MIXED. Pkt. 20c; $\frac{1}{8}$ oz. 60c.

LATE BRANCHING—Strong stems hold the flowers upright; strong, hardy growers, producing blooms 4 to 5 inches across, composed of tightly formed petals rather incurved in form. Mixed colors. Pkt. 10c; $\frac{1}{4}$ oz. 40c.

Aster, California Giants

GIANT CREGO ASTERS

Immense fluffy flowers averaging 4 to 6 inches in diameter. Vigorous plants producing abundance of these large flowers on good stems. Offered in separate shades as follows: CREGO SHELL PINK, CREGO DEEP ROSE, CREGO WHITE, CREGO PURPLE, CREGO LAVENDER, CREGO CRIMSON, CREGO PINK, CREGO AZURE BLUE and CREGO MIXED. Each, Pkt. 10c; $\frac{1}{4}$ oz. 40c.

GILL'S FANCY MIXED—A mixture of all colors in popular types. Pkt. 10c; $\frac{1}{4}$ oz. 40c.

HEART OF FRANCE—A beautiful new rich dark red; two feet high; branching habit. Pkt. 10c.

YELLOW QUEEN—The best yellow aster; fairly large and fully double. Pkt. 15c.

SINGLE FLOWERING ASTERS

Single asters are becoming very popular and are effective either in the garden or when cut. We offer the following colors: SCARLET, BLUE, MIXED. Pkt. 10c; $\frac{1}{4}$ oz. 35c.

ASTER COLLECTION OFFER

We offer any 10 pkts., your choice of those priced at 10c; sent postpaid for 75c.

ASTER HARDY PERENNIAL

Single, fall flowering hardy perennials. Shades of pink, blue and white in mixture. Pkt. 10c.

ABUTILON (Flowering Maple)

Tender perennial of easy culture for potting or planting outside. Pkt. 15c.

ACANTHUS (Bear's Breach)

Hardy perennial; giant decorative leaves 2 feet long and 1 foot wide. Pkt. 15c.

ACHILLEA

Hardy perennial of easy culture. Large clusters of small, double pure white flowers. A fine everlasting flower for Winter bouquets. Pkt. 15c.

ACONITUM (Monkshood)

NAPELLUS—Hardy perennial, growing spikes of curious shaped blue and white flowers. Pkt. 15c.

ADONIS

FLOS—Rare, small flowers of brilliant scarlet, suited for cutting. Pkt. 10c.

AGERATUM

Annuals, suited for boxes, pots and borders. BLUE PERFECTION—Large, deep blue; compact growth. Pkt. 10c.

DAWAR WHITE—8 inches high. Pkt. 10c.

MIXED—All colors. Pkt. 10c.

AGROSTEMMA (Mullen Pink)

Hardy perennial. Single flowers of rich crimson; silvery white foliage. Pkt. 10c.

AFRICAN DAISY

Sow seed same as asters and plant in sunny position. They bloom all summer.

AURANTICA—Flowers 2 $\frac{1}{2}$ to 3 inches across of glossy orange gold, with dark disc and halo. Pkt. 10c.

NEW HYBRIDS—Shades of white, yellow, orange and salmon zoned with a black disc. Pkt. 15c.

ALYSSUM

CARPET OF SNOW—Grows 2 inches high and is heavily massed with white blossoms 15 inches in diameter. Pkt. 10c.

COMPACTUM YELLOW—A new dwarf yellow in a small sort. Pkt. 15c.

SWEET ALYSSUM MARITIMUM—Hardy annual, blooming with white flowers in early spring. Tailoring habit. Pkt. 10c.

LITTLE GEM—Dwarf compact habit; four inches high with white blossoms. The best sort for edgings, Pkt. 10c; $\frac{1}{2}$ oz. 30c.

LILAC QUEEN—Dwarf compact habit; flowers deep lavender lilac. Pkt. 10c.

PERENNIAL, SAXATILE COMPACTUM—Sometimes called "Basket of Gold." Grow 1 foot high and makes a mass of small yellow flowers in May. Easy to grow. Pkt. 15c.

ANCHUSA

DROPMORE VARIETY—Splendid hardy perennial, easily started from seed. Grows 3 to 5 feet high, covered with rich gentian blue flowers during June and July. Pkt. 15c.

Double Crested Cosmos

AMARANTHUS

Brilliant foliage annuals growing 3 to 5 feet high. Do best in sunny locations.

CANDATUS—Blood Red, drooping. Pkt. 10c.

SUNRISE—Bronzy crimson, each branch tipped with scarlet carmine leaves. Pkt. 10c.

TRICOLOR—Red, yellow, green. Pkt. 10c.

AQUILEGIA (Columbine)

Hardy perennial. Start inside or in the open and transplant to permanent place.

LONG SPURRED HYBRIDS—Extra long spurs. Shades and combinations of blue, white, pink, yellow, orange and scarlet. Pkt. 15c.

CALIFORNIA HYBRIDS—Long spurred flowers in orange and yellow shades. Pkt. 10c.

COERULULA—Violet blue and white combinations; 2 feet. Pkt. 10c.

ARABIS (Rock Cress)

Hardy perennial producing a mass of white flowers very early in the spring. Pkt. 10c.

ARCOTIS (African Daisy)

Splendid cut flower, growing about 2 feet high. Daisy like flowers of white on upper portion of petal; reverse, pale lilac blue. Blooms during late summer. Pkt. 10c.

ARMERIA

Hardy perennial with evergreen tufts. Clusters of rose colored flowers on stems a foot long. Pkt. 10c.

ASPARAGUS

PLUMOSUS—Flat fern like foliage. Grow in pots. Pkt. 25c.

SPRENGERI—Useful for baskets, window boxes, etc. Both of these asparagus are fine greens to mix in bouquets. Pkt. 15c.

BEANS, SCARLET RUNNER

A fine climber for porch or trellis. Pkt. 10c; $\frac{1}{2}$ lb. 40c.

BALSAM

Hardy annuals growing 2 feet high. Plant inside or in hot bed in March. Plant out after danger of frost is over. Offered in mixture. Pkt. 10c.

BELLIS OR ENGLISH DAISY

MONTROSA DOUBLE—This giant type far exceeds the old type, being much larger. Offered in white, red, mixed. Pkt. 15c.

BOCCONIA (Plume Poppy)

Hardy perennial of great beauty. Height 5 feet; foliage glaucous green; flower spikes cream colored, 3 feet long. Pkt. 10c.

BOLTONIA

Hardy perennial; 4 to 6 feet; immense clusters of daisy like flowers July to September. Offered in white and lilac pink. Pkt. 10c.

BRACHYCOME

SWAN RIVER DAISY—Free flowering plants, 9 inches high, covered in Summer with small white or blue flowers. Pkt. 10c.

CANNA SEED

Soak seed in warm water until they show signs of swelling and plant in hot bed. Transplant after danger of frost is over. They are interesting to grow, as new sorts come from seedlings. Pkt. 10c.

CALENDULA, POT MARIGOLD

The old fashioned marigold. A hardy annual that blooms from early to late.

ORANGE KING, FLORIST STRAIN—Extra select seed. Large flowers of orange red with darker centers. Very double and perfect. Pkt. 15c; $\frac{1}{4}$ oz. 50c; oz. \$1.50.

THE BALL—Special florist strain with double perfect flowers of rich orange with lighter center. Pkt. 15c; $\frac{1}{4}$ oz. 60c; oz. \$2.00.

ORANGE KING—Large double flowers of a dark orange red. Pkt. 10c.

LEMON QUEEN—Double bright yellow flowers; very large. Pkt. 10c.

DOUBLE MIXED—All colors. Pkt. 10c.

CANTERBURY BELLS

Plant seed in a box or frame in early spring or they can be planted in the open ground about June 1. Cover the seed very lightly and spread a paper over the surface until the seed germinate.

CUP AND SAUCER BELLS—The largest type, with cup and saucer shaped flowers. Offered in separate colors as follows; WHITE, BLUE, PINK and MIXED at 10c pkt.

MEDIUM—(Single Canterbury Bells) — The old fashioned type with bell-shaped blooms. BLUE, ROSE, WHITE and MIXED. Pkt. 10c.

PEACH BELLS MIXED—A true perennial and one of the best of the bell-flowers. Offered in BLUE, WHITE, MIXED. Pkt. 10c.

PYRAMIDALIS—Stately perennial; 4 to 5 feet; offered in WHITE, BLUE or MIXED.

CARPATICA (Hare Bell)—Free flowering hardy perennial; grows 6 inches high and especially suited for edgings. Offered in BLUE and WHITE. Pkt. 10c.

CALIFORNIA POPPY

Popular annuals which can be planted any time during Spring, Summer or Fall. Fall plantings will bloom in the Spring. They bloom a few weeks from planting. We offer several new, rare colors.

ORANGE FLAME—Vivid orange scarlet. Pkt. 10c. BALLET GIRL—Outside cochineal carmine, inside creamy white. Pkt. 10c.

PURPLE GLOW—Rare reddish purple. Pkt. 10c. TANGO—The tango shade or bronzy red overlaid terra cotta. Pkt. 10c.

MAUVE BEAUTY—Pure mauve. Pkt. 10c. LOVELY—Rose suffused salmon. Pkt. 10c. SCARLET BEAUTY—Scarlet. Pkt. 10c.

THE GEISHA—Inside golden yellow; outside orange crimson. Pkt. 10c.

ALBA—Pure white flowers. Pkt. 10c. GRANDIFLORA GIANTS—A mixture of large types in new rare shades. Pkt. 10c.

DOUBLE MIXED—Yellow and white only in mixture. Pkt. 15c.

CALLIOPSIS

Showy annuals, of easy culture, blooming all Summer. Sow in April in open.

GOLDEN WAVE—Golden yellow with brown centers. Pkt. 10c.

CORONATA—Large pure yellow flowers, excellent for bedding. Pkt. 10c.

NIGRA SPECIOSA—Grows 2 feet high; flowers rich reddish maroon. Pkt. 10c.

CHOICE MIXED—All single colors. Pkt. 10c.

DOUBLE MIXED—Pkt. 10c.

See Garden Grow fertilizer, page 18. Offered in 10-pound packages. Just the thing for flowers.

CARNATION

Perennial blooming the first season.

SEPARATE COLORS—Scarlet, white, yellow, old rose, near black, rose and dark red. Pkt. 15c.

GIANT MIXED—Giant type. Pkt. 15c.

MARQUERITE MIXED—A splendid mixture of large flowers. Pkt. 10c.

EVERBLOOMING—Almost continually in bloom from June to frost. Pkt. 15c.

FLORIST'S MIXTURE—A special mixture saved from florist sorts. Can be used inside or outside. Pkt. 20c.

CANDYTUFT

Sown in the Fall, will flower in early Spring; sown in April will bloom in June.

GIANT HYACINTH—A selected strain, producing 6 to 7 large, erect, white spikes. Pkt. 10c.

FLESH PINK—A new shade. Pkt. 10c.

LAVENDER—Soft rose lavender. Pkt. 10c.

CARMINE—Bright carmine rose. Pkt. 10c.

CRIMSON—Rich deep shade. Pkt. 10c.

LITTLE PRINCE—Very desirable for borders or edgings, also boxes and tubs. Pkt. 10c.

MIXED—All colors. Pkt. 10c.

CASTOR BEANS

Highly ornamental plants valuable for tropical effects. Useful for large beds or borders along paths and drives. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

CELOSIA PLUMOSA

THOMPSON'S SUPERB—Pyramidal growth, 2 feet. Graceful, feathery, plumes of brilliant crimson. Bronze foliage. Pkt. 10c.

THOMPSON'S MAGNIFICA—Like the preceding except in color, which vary in the most magnificent shades, ranging from clearest yellow to the darkest blood-red. Pkt. 10c.

GOLDEN PLUME—Golden-yellow. Pkt. 10c.

CHILDSI or CHINESE WOOL FLOWER—Produces large heads of rich colors, resembling certain killy wool materials. Plants strong and hardy, growing about two feet high. Useful for beds, also for cutting and drying. Offered in CRIMSON, PINK, YELLOW and MIXED. Pkt. 10c.

CELOSIA CRISTATA (Cockscomb)

Sow inside in March and set out in May or sow outside in May. Very free flowering.

EMPEROR—Combs of colossal proportions; they have been grown measuring 45 inches from tip to tip; rich crimson. Pkt. 10c.

CENTAUREA

ROYAL SWEET SULTANS—Beautiful, sweet-scented, artistic flowers, on long stems. Fine cut flowers. Sow early in Spring. Finest Mixed. Pkt. 10c.

WHITE LEAVED CENTAUREA (Dusty Miller)—Fine for bedding, vases, hanging baskets, pots, etc. Foliage silvery white. Hardy perennial, easily grown. Pkt. 15c.

MONTANA—Hardy perennial. Two feet; large violet blue flowers July to September. Pkt. 15c.

CERASTIUM (Snow in Summer)
Hardy, dwarf perennial with white foliage and flowers. Pkt. 15c.

CHRYSANTHEMUM, ANNUAL

Grows about 2 feet high and blooms in mid-Summer. Single white and yellow flowers zones with yellow to red. Pkt. 10c.

DOUBLE MIXED—Yellow, white, etc. Pkt. 10c.

CHRYSANTHEMUMS, PERENNIAL

GIANT MIXED—A fine mixture—saved from hardy, large flowering plants. Seed started early in the spring will bloom the first season. Pkts. 25c.

ASTER TYPE MIXED—Small double flowers are produced in profusion. Very hardy and they bloom early. Pkt. 20c.

CINERARIA

Beautiful greenhouse, or indoor flower easily grown from seed. We offer a high grade mixture. Pkt. 50c.

CLARKIA

Valuable annuals, growing 2 to 2½ feet tall. Leafy branches are covered with double flowers fine for cutting. Easily grown.

ORANGE KING—Rich orange. Pkt. 10c.

SCARLET QUEEN—Orange scarlet. Pkt. 10c.

SALMON QUEEN—Salmon pink. Pkt. 10c.

APPLE BLOSSOM—Pink and white. Pkt. 10c.

PURPLE PRINCE—Fine rich purple. Pkt. 10c.

DOUBLE MIXED—All shades. Pkt. 10c.

COLEUS

Novel and attractive foliage. Easily raised from seed. Start indoors in March. Mixed colors. Pkt. 20c.

COREOPSIS

LANCEOLATA GRANDIFLORA—Hardy perennial of easy culture. Large showy, bright yellow flowers produced freely from June until frost. A splendid cut flower. Pkt. 10c; ¼ oz. 25c.

CORNFLOWER, CENTAURIA

CYANUS

The common Bachelor's Button.

SINGLE MIXED—All colors. Pkt. 10c.

DOUBLE MIXED—Various colors. Pkt. 10c.

DOUBLE BLUE—A large semi-double sort, especially fine for cutting. Pkt. 10c.

DOUBLE PINK—Large pink. Pkt. 10c.

COBEA

Rapid growing annual climber. Should be started indoors in March or planted outside in May. Large bell-shaped blossoms.

SCANDENS—Large purple. Pkt. 10c.

SCANDENS ALBA—Pure white. Pkt. 10c.

COSMOS

Hardy annuals which, planted after danger of frost in the open, will bloom in the late Fall.

NEW DOUBLE COSMOS—The majority of the flowers come double, much like the Golden Glow or decorative dahlia. DOUBLE WHITE, DOUBLE PINK, DOUBLE CRIMSON, DOUBLE MIXED. Pkt. 20c.

DOUBLE CRESTED COSMOS—A distinct type with a single outer row of large petals, while shorter petals compose a full double center, giving it the appearance of an Anemone flowered dahlia. SOFT PINK, DARK CRIMSON, PURE WHITE, MIXED. Pkt. 15c.

EARLY CRESTED MIXED—An early flowering type. Pkt. 20c.

EXTRA EARLY COSMOS

MAMMOTH EARLY FLOWERING (New)—The flowers average 4 to 5 inches across, surpassing late varieties in size. Planted in the open ground, they blossom in 60 to 80 days. WHITE, PINK, CRIMSON, MIXED. Pkt. 10c.

CUCUMBER, WILD VINE

Quick growing annual. Foliage green with sprays of white flowers. Pkt. 10c.

CLYCLAMEN

GIANT MIXED—A splendid mixture of brilliant and soft shades. Pkt. 25c.

DAHLIA SEED

Growing Dahlias from seed is very interesting. They should be started like asters and transplanted about May 1st.

CACTUS MIXED—A choice mixture saved from named cactus sorts. Pkt. 35c.

CHOICE MIXED—This mixture embraces many colors in different types. Pkt. 25c.

DATURA

Large trumpet flowers 3 inches long and 5 inches across. Flowers white inside and purple outside. Two to 3 feet high. Pkt. 10c.

HARDY PINKS

DOUBLE DWARF CLOVE PINK—Compact growth, early flowering. Possesses a spicy clove fragrance. Perennial. MIXED COLORS. Pkt. 15c.

Delphinium Giant Prize

DELPHINIUM (Perennial Larkspur).

BELLADONNA—The best sort for cutting and the most ever-blooming type. Usually grows 4 to 6 feet, the flowers being loosely set on the stems, and of beautiful turquoise blue. If started inside and transplanted they will often bloom the first season. Offered in LIGHT BLUE and DARK BLUE. Pkt. 20c.

GIANT PRIZE MIXED—New and rare shades grown by a specialist. Pkt. 35c.

GOLD MEDAL HYBRIDS—Strong, tall, vigorous plants in various shades of blue or with pink and blue combinations. Pkt. 15c.

DIDISCUS, LACE FLOWER

A rare new flower with branched plants about 18 inches high. Clusters of tiny petaled flowers giving the effect of dainty lace. Color exquisite light blue. Pkt. 20c.

DIATHUS, PINK

Biennials growing about a foot high. VIOLET QUEEN—Dark purple. Pkt. 10c. CHINA PINKS—Mixed, double. Pkt. 10c. DIADEM PINKS—Double flowers in various colors, edged with white fringe. Pkt. 10c. SALMON KING—Salmon rose. Pkt. 10c. FINEST MIXED—A fine mixture. Pkt. 10c.

ECHINOPS (Globe Thistle)

Hardy perennial with silvery foliage and round, close blue flower heads. Fine for cutting. Three to 5 feet. Pkt. 15c.

DIGITALIS, FOXGLOVE

Popular hardy perennial of easy culture. Plant inside or outside and transplant. PURPLE, ROSE, WHITE, MIXED. Pkt. 10c.

MAMMOTH FOXGLOVE MIXED—Giant saucer-shaped flower tops each spike. Pkt. 15c.

ERYNGIUM (Sea Holly)

Hardy perennial often called Blue Thistle. Finely-cut shiny foliage; 2 to 3 feet; offered in blue or white. Pkt. 15c.

EUPHOBIA

Annuals, suitable for beds and borders.

VARIEGATA (Snow on the Mountains)—Attractive green foliage, veined and margined white; 2 feet. Pkt. 10c.

HETEROPHYLLA—(Annual Poinsettia)—Leaves of glossy green, which turn orange scarlet in the summer. Pkt. 15c.

FOUR O'CLOCK

Free flowering favorite that does well anywhere. Give plants 12 to 18 inches of room. Mixed colors. Pkt. 10c; oz. 20c.

GAILLARDIA, PERENNIAL

FINEST MIXED—One of the finest perennials, blooming all Summer and Fall, containing shades of yellow and yellow with red halos. Pkt. 15c.

GEUM

MRS. BRADSHAW—The best variety of this wonderful perennial. The flowers are over two inches in diameter and semi-double. Color brilliant scarlet and produced on long stems; an exceptional cut flower and easily started from seed. Blooms in June and July. Pkt. 15c.

LADY STRATHEDEN—The same type as Mrs. Bradshaw but a large double yellow. Pkt. 25c.

GERANIUM

LADY WASHINGTON MIXED—Pkt. 10 seeds 25c. ZONALE MIXED—A superb strain of the largest and finest. Start indoors. Pkt. 15c.

GODETIA

Free flowering annuals growing best in rather poor soil. Very easy to grow and valuable for garden or cutting.

Dwarf Varieties

DUCHESS OF ALBANY—Pure white. Pkt. 10c. CRIMSON GLOW—Compact plants covered with a mass of crimson flowers. Pkt. 10c.

ROSAMOND—Large shell pink. Pkt. 10c.

GLORIOSA—Satiny blood red. Pkt. 10c.

DWARF MIXED—All shades. Pkt. 10c.

Tall Varieties

DOUBLE CRIMSON—Tall plants. Pkt. 10c.

DOUBLE ROSE—Beautiful sort. Pkt. 10c.

DOUBLE MIXED—Various shades. Pkt. 10c.

GOARDS, ORNAMENTAL

Culture, similar to cucumbers.

FINE MIXED—Very fine mixture. Pkt. 10c.

DIPPER—Very useful. Pkt. 10c.

HERCULES CLUB—4 feet long. Pkt. 10c.

WHITE EGG SHAPED—Egg size. Pkt. 10c.

GRASSES, ORNAMENTAL

PURPLE FOUNTAIN GRASS—Graceful, purple plumes and green foliage. Annual. Pkt. 10c.

PAMPAS—Hardy perennial blooming second year from seed. Pkt. 15c.

HARDY FOUNTAIN—Perennial, 4 ft. Pkt. 10c.

GYPSOPHILIA, BABY'S BREATH

ELEGANS ALBA—Annual. Small white clusters for mixing with bouquets. Pkt. 10c; oz. 35c.

PANICULATA—Perennial. Pkt. 15c.

HELIOTROPE

Start indoors, plant out in May.

LEMOINES GIANT—Extra large. Pkt. 15c.

HELICHRYSUM

STRAW FLOWER—Double flowers on plants two feet high. Fine everlasting flowers to put away for Winter. These bright colored flowers are valuable for decorating and can be kept indefinitely.

Offered in SCARLET, YELLOW, SALMON, VIOLET, ROSE CARMINE and MIXED. Pkt. 10c.

HOLLYHOCK

Hardy old fashioned perennial. Easily grown.

SEPARATE COLORS—Double maroon, red, pink, rose, white, yellow, scarlet. Pkt. 10c.

CHOICE DOUBLE MIXED—Pkt. 10c.

SINGLE MIXED—All colors. Pkt. 10c.

HIBISCUS, MARSHMALLOW

New giant types in mixture. Easily grown perennial. Pkt. 10c.

IBERIS

(Hardy Candytuft)

MIXED—Easily grown from seed. Splendid bedding plant forming a mass of bloom one foot in height and diameter. Pkt. 10c.

INCARVILLEA (Hardy Gloxinia)

DELAVAYI—Hardy perennial on Western coast. Rose colored Gloxinia type flowers on stems 15 inches long. Pkt. 15c.

IRIS

JAPANESE MIXED—Hardy perennial blooming the second year. Pkt. 15c.

SIBERIAN MIXED—Heavy grass-like foliage. Flower stems 2 to 3 feet long. Dark purple and white in mixture. Extra hardy perennial. Pkt. 15c.

KOCHIA, STANDING CYPRESS

An easily grown annual, which sown thinly in the Spring forms a cypress-like hedge of the most lively green, of perfect symmetry; by mid-summer attains a height of 3 feet. In the Autumn the whole plant becomes a deep red. Pkt. 10c; 1/4 oz. 25c.

LANTANA

Half hardy perennial greenhouse or bedding plant. Verben-like heads of orange, white, rose, etc. Mixed colors. Pkt. 15c.

LATHYRUS

(Perennial Sweet Peas)

Strong growing, hardy climber; easily started from seed. Continually in bloom and fine for cutting. Offered in WHITE, ROSE, DARK RED, MIXED. Pkt. 15c.

LAVENDER

Well known, hardy perennial, growing about 3 feet high. Very fragrant. Pkt. 10c.

ANNUAL LUPINE

Easily grown annual; long spikes of pea-shaped flowers; 2 feet. MIXED. Pkt. 10c.

PERENNIAL LUPINE—Hardy plants with spikes 3 ft. in height, blooming May and June. WH TE, PURPLE, ROSE, YELLOW and MIXED. Pkt. 10c.

LOBELIA

Used for pots, edges or hanging baskets.

CRYSTAL PALACE COMPACTA—Best dark blue. Dwarf compact plants. Pkt. 10c.

SPECIOSA—Dark blue flower and dark foliage. Trailing. Pkt. 10c.

WHITE GEM—Snow White. Pkt. 10c.

MIXED DWARF—All colors. Pkt. 10c.

LARKSPUR ANNUAL

Hardy annuals growing two or three feet high; splendid for beds or cutting.

DWARF DOUBLE SORTS—Separate colors. BLUE, WHITE, ROSE, SCARLET, MIXED. Pkt. 10c.

EXQUISTE—New, beautiful soft pink on tall plants. Valuable cut flower. Pkt. 10c.

LINIUM (Blue Flax)

Showy hardy perennial of easy culture from seed. 2 feet. Pkt. 10c.

LYCHNIS (Jerusalem Cross)

Easily grown from seed and will bloom the first year. Beautiful heads of scarlet flowers on stems two feet high. Hardy perennial. Pkt. 10c.

MIGNONETTE

Keep up a succession of flowers by sowing in April and July.

DEFIANCE—Extra large spikes, 15 to 18 inches long, deliciously fragrant. Pkt. 10c.

MIXED—Various colors mixed. Pkt. 10c.

MARIGOLD

French Varieties

Hardy annuals of easiest culture.

TALL DARK BROWN—Very double. Pkt. 10c.

TALL ORANGE—Double beauty. Pkt. 10c.

TALL FRENCH—Mixed. Double. Pkt. 10c.

DWARF MIXED—Double sorts. Pkt. 10c.

LEGION OF HONOR—Dwarf single yellow, spotted with velvet crimson. Pkt. 10c.

African Varieties

PRIDE OF THE GARDEN—Immense, double, golden yellow flowers; compact plants; 18 inches. Pkt. 10c.

ORANGE PRINCE—Large, double, rich deep golden orange on tall plants. Pkt. 10c.

LEMON QUEEN—Double; tall. Pkt. 10c.

LARGE AFRICAN MIXED—Double. Pkt. 10c.

DWARF AFRICAN MIXED—Double. Pkt. 10c.

MATTHIOLA (Evening Scented Stock)

The pink and lilac blossoms give off a delicate perfume on the evening air but are partly closed during the day. Annuals growing 12 to 18 inches. Pkt. 10c.

MORNING GLORY

CLIMBING MIXED—15 feet. Pkt. 10c.

DWARF MIXED—1 foot. Pkt. 10c.

IMPERIAL JAPANESE—Large fringed flowers in varied colors. Pkt. 10c.

MYOSOTIS, FORGET-ME-NOTS

Hardy perennials, easily grown.

ROBUSTA GRANDIFLORA—Blue. Pkt. 10c.

WHITE GEM—Pure white. Pkt. 10c.

EVERBLOOMING MYOSOTIS—Clear blue flowers, blooming May to Autumn. Pkt. 10c.

MIXED—Blue, rose, white mixed. Pkt. 10c.

NASTURTIUM

Sow in April, thin to 2 to 3 inches.

PRICES—Unless otherwise noted, prices for dwarf and tall varieties, are uniformly: Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 75c; postpaid.

Dwarf Varieties

BRONZE—Bronze orange.

GO DEEN KING—Rich, golden yellow.

KING THEODORE—Maroon, dark foliage.

PEARL—Creamy white.

KING OF TOM THUMBS—Scarlet, dark leaves.

FINEST MIXED—All colors. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

Tall Varieties

KING THEODORE, TALL—Maroon, dark foliage.

ORANGE—Pure orange.

ROSE—Ruby rose.

SPITFIRE—Fiery Scarlet.

GIANT OF BATTLES—Sulphur Blotched red.

CALIFORNIA GIANTS MIXED—All colors. Pkt. 10; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

IVY LEAVED TALL MIXED—Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

OENOTHERA

Large golden flowers, easily grown from seed. Do best in sunny position. Pkt. 10c.

NICOTINA, FLOWERING TOBACCO

FINEST MIXED—All shades. Pkt. 10c.

NIGELIA

MISS JEKYLL—Splendored cut variety; cornflower-blue flowers. Pkt. 10c.

PENTSTEMON

SENSATION—Ranks with petunias; embraces a wide range of color, including rose, carmine, cherry, pink, lilac and purple. Two feet high. Not quite hardy and should be covered in winter. Pkt. 15c.

BARBATUS TORREYII—Hardy perennial; 3 feet; spikes of coral red flowers. Pkt. 10c.

PHLOX DRUMMONDI

A beautiful annual that may be used for massing, beds, borders or pots. Sow in the open after danger of frost is over.

Select Large Flowering Varieties

LARGE FLOWERING MIXED—Contains a great variety of colors. Pkt. 10c.

SEPARATE COLORS—White, deep rose, bright scarlet and primrose. Pkt. 10c.

HARDY PERENNIAL PHLOX—The seed can best be planted in the fall in open ground. It germinates very slowly. Mixed 15c.

Pansy, Malvaceae Giants

PANSIES

Sow early inside or plant in the open in April. Sown in July and August will make good plants for the next Spring.

MADAM STEELE—Giant flower of deep velvety purple. Pkt. 25c.

IMPROVED VOLCANO—A rich, velvety Burgundy red of immense size. Pkt. 25c.

PRINCE HENRY—Giant dark blue. Pkt. 25c.

MILLE, IRENE—Large flowers of henna red. A new shade. Pkt. 25c.

BRONZE GIANTS—Different colors from burnished brass to gold, wonderfully tinged with various shades. Pkt. 25c.

PANAMA PACIFIC—A huge deep yellow; some with dark centers, some without. Pkt. 25c.

BLACK GIANT—Nearly jet black. Pkt. 25c.

IMPROVED GRAND DUKE MICHEAL—The finest and largest pure white. Pkt. 25c.

MIRACLE GIANTS—A super mixture from the latest colors and novelties. Selected for giant size, long stems and great range of color. Pkt. 35c.

OREGON GIANTS—A splendid mixture of giant flowers in a wonderful range of color. Pkt. 25c.

TUFTED PANSIES, MIXED—Produces a mass of small blooms all summer. Pkt. 10c.

PETUNIAS

DEFIANCE, LARGEST FLOWERING—Flowers often five inches in diameter, fringed, with open throats. Colors varied and indescribable. For size and beauty this is the best strain. Pkt. 25c.

DOUBLE GIANTS—Only a portion of these come double, but these are well worth while. Those plants which show the weakest vitality in starting make the best flowers in either single or double. Pkt. 35c.

Single Bedding Petunias

STAR PETUNIA—Compact plants; cherry-red flower with white center. Pkt. 10c.

COUNTESS OF ELLSMERE—Pink with white throat. Masses of bloom. Pkt. 10c.

BLOOD RED—Pkt. 10c.

MIXED—Pkt. 10c.

FORTULACA, SUN PLANT

A hardy annual, doing best in a rich loam. Fine for massing in beds, edging or rock work.

SINGLE MIXED—Containing rose, scarlet, white, yellow, etc. Pkt. 10c.

DOUBLE MIXED—Mostly double. Pkt. 10c.

PLATYCODON (Balloon Flower)

Hardy perennial of easy culture; one foot high. Blue and white mixed. Pkt. 15c.

Send to us for Better Flowers, a Portland magazine of flower culture. A publication of this kind is much needed in the Northwest and deserves your support. Subscription \$1.00 per year.

PRIMROSE, HARDY

JAPONICA (JAPANESE PRIMROSE) — Bright showy clusters on stems 6 to 9 inches long. Mixed colors. Pkt. 15c.

VULGARIS (ENGLISH PRIMROSE) — Canary yellow, fragrant. Pkt. 15c.

AURICULA MIXED—A favorite variety; 6 inches tall. Pkt. 25c.

POPPIES

May be sown in the Fall or early Spring.

Single Sorts

FLANDERS — The poppy of Flanders Field. Crinkled, satiny flowers of bright scarlet on slender stems. Pkt. 10c.

AMERICAN LEGION — Giant dazzling orange scarlet on stout stems. Pkt. 10c.

BLUE SHIRLEY—New grey blue shades. Very attractive. Pkt. 10c.

PICOTTE SHIRLEY—White edged red. Pkt. 10c.

GILL'S MIXED SHIRLEY—All colors. Pkt. 10c.

DANISH CROSS—Scarlet with white spot forming a cross. Pkt. 10c.

TULIP POPPY—It grows from 15 to 20 inches high and is simply a blaze of bright scarlet tulip-shaped flowers. Pkt. 10c.

Double Sorts

DOUBLE PINK SHIRLEY—Beautiful pink shades, very large. Pkt. 15.

DOUBLE SHIRLEY MIXTURE—All the latest new shades, and is a wonderful mixture of double Shirley poppies. Pkt. 15c.

PEONY FLOWERED—Large double flowers on tall plants. Offered in ROSE PINK, SHELL PINK, BLACK, CARDINAL RED, CREAMY YELLOW, PURPLE, MIXED. Pkt. 10c.

FAIRY BUSH—Elegantly fringed, white tipped rose. Pkt. 10c.

WHITE SWAN—Immense fringed. Pkt. 10c.

CARNATION FLOWERED—Double fringed, mixed colors. Pkt. 10c.

AMERICAN FLAG—Large and very double, white, bordered with scarlet. Pkt. 10c.

MEXICAN OR PRICKLY POPPY—Plants 2 to 3 feet high, spiny foliage, large flowers in shades of yellow and white. Pkt. 10c.

GIANT YELLOW TULIP POPPY—Fine for cutting; large, butter-cup yellow. Pkt. 10c.

ORIENTAL POPPIES

Perennials easily started from seed and make a gorgeous display. Very hardy and will last for years. Fine cut flowers.

ORIENTAL—Large, deep crimson flowers, with black blotch on each petal. Pkt. 10c.

PRINCESS VICTORIA LOUISE—Large, soft salmon rose. Pkt. 20c.

ICELAND POPPIES

Very dainty perennial. They form neat fern-like tufts from which the slender flower stems protrude to a height of one foot. Single flowers of crumpled appearance. Orange, white and yellow, in mixture. Pkt. 10c.

PHYSOSTEGIA

Hardy perennial. Delicate pink, tubular flowers on plants 3 feet tall. Pkt. 15c.

PYRETHRUM

GOLDEN FEATHER—Yellow foliage plant, used for edging and bedding. Pkt. 10c.

HYBRIDUM—Large flowering, single mixed. Hardy perennials bearing daisy-like flowers in various shades of pink, red and white. A fine cut flower, Pkt. 15c.

DOUBLE MIXED—Distinct from the single variety. Dense double flowers in various shades. Pkt. 25c.

RUDBECKIA

NEWMANI — Hardy perennial of easy culture. Orange petals and black cone center. Pkt. 15c.

SALPIGLOSSIS

Sow indoors for early, or can be sown outside after danger of frost is past.

LARGE FLOWERING MIXED—Pkt. 10c.

DARK SCARLET—Very beautiful. Pkt. 10c.

SCARLET AND GOLD—A beauty. Pkt. 10c.

SALVIA (Scarlet Sage)

Sow indoors in March, plant out in May.

DWARF SALMON BEAUTY—Charming novelty of salmon color. Pkt. 25c.

SPLENDENS—Bright scarlet, 3 ft. Pkt. 10c.

PATENS—Intense blue flowers. Pkt. 20c.

FIREBALL—Neatly rounded plants, 18 inches; bright scarlet flowers. Pkt. 15c.

AZUREA—Hardy perennial. Spikes of skyblue.

SCABOSIA OR MOURNING BRIDE

Sow outside after danger of frost is past.

LARGE FLOWERING MIXED—Pkt. 10c.

AZURE FAIRY—Double pale blue. Splendid for cutting. Pkt. 10c.

CAUCASCA—Hardy perennial; 3 feet; large lavender-blue flowers.

SCHIZANTHUS

(Butterfly or Fringe Flower)

NEW GIANT HYBRIDS—An easy, quick growing annual. Fancy mixed. Pkt. 10c.

SHASTA DAISY

ALASKA—The popular evergreen perennial, with single flowers, often 5 inches across, of purest glistening white. Pkt. 15c.

SNAP DRAGON

For early flowering, sow seed in the Fall and then set out in the Spring, or the plants may be started in the Spring.

SEPARATE COLORS as follows: GIANT WHITE GIANT SCARLET, GIANT YELLOW, GIANT GARNET, GIANT PINK, at 10c per pkt.

MAXIMUM MIXED—Giant flowers closely set on tall spikes, a grand new type. Pkt. 15c.

BRILLIANT ROSE—Rich rose pink. Pkt. 10c.

BRILLIANT—Scarlet, gold, white. Pkt. 10c.

SILVER PINK—Tall dainty pink. Pkt. 10c.

GEORGEOUS—Red; white throat. Pkt. 10c.

GILL'S SUPERIOR MIXED—This mixture contains a great variety of colors. Pkt. 10c.

SWEET ROCKET

Hardy perennial of easiest culture; 3 feet tall; fragrant spikes of bloom in May; valuable for cutting. WHITE, CARMINE and MIXED. Pkt. 10c.

SENSITIVE PLANT, MIMOSA

A curious annual, its leaves close when touched, or if the stem is touched the whole leaf will fall. Easy to grow. Pkt. 10c.

—o—

STRAW FLOWER (see Helichrysum, Page 22).

STOCKS

Easily grown from seed and flowers the first year. Half hardy perennial.

IMPROVED LARGE FLOWERING TEN WEEK—A superior strain which runs 80 to 90 per cent double, BLOOD RED, BRIGHT PINK, ROSE, PURPLE, WHITE, MIXED. Pkt. 15c.

MAMMOTH BEAUTY OF NICE—Branched plants, 2 feet high. Large double flowers mixed. Pkt. 15c.

GIANT PERPETUAL MIXED—Started in April, they begin blooming in July and continue until winter. Large double flowers. Pkt. 15c.

STOKESIA

CYANEA—Valuable cut flower perennial easily grown from seed. Grows 2 feet high producing lavender-blue flowers. Pkt. 15c.

THUNBERGIA, BLACK EYED SUSAN

Rapid growing annual climber, preferring a warm situation; useful for hanging baskets, vases, along fences, etc. Buff white, orange, etc., with dark eyes; 4 feet. Mixed colors. Pkt. 10c; 1/4 oz. 50c.

TRITOMA (Red Hot Polker)

A strong growing hardy perennial easily grown from seed. Height 4 to 5 feet. Beautiful shades of coral, crimson and scarlet. Pkt. 15c.

Note our up-to-date list of flower seeds. We carry fresh seeds that grow.

SPENCER SWEET PEAS

WE OFFER THE LARGEST SELECTION OF SWEET PEAS IN THE NORTHWEST.

Their easy culture, freedom of bloom, delightful fragrance and artistic appearance combined with their splendid cut-flower qualities make them one of the most desirable flowers for the public.

Spring sowings should be made as early in the spring as the soil conditions permit. Here in the Coast regions they can often be planted in February. They can also be planted in trenches in November and with this method they will bloom very early in the spring, in fact are usually in bloom for Decoration Day. The Spencer type is by far the best, and we do not carry the Eckford type.

NOVELTIES IN SPENCERS

PRICES ON NOVELTIES—Unless otherwise listed:

Pkt. 10c; $\frac{1}{2}$ oz. 30c; oz. 50c; $\frac{1}{4}$ lb. \$1.50.

SOFT BLEND SPENCERS—This blend of soft colors has become very popular. It contains cream, white, lavender and soft pink in mixture. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c; $\frac{1}{4}$ lb. \$1.25; lb. \$3.50.

CONTRAST BLEND—Orange scarlet and cream blended. Try growing these together and use them mixed for bouquets. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 40c; $\frac{1}{4}$ lb. \$1.25.

CUPID SWEET PEAS (Dwarf)

A dwarf type growing about 6 inches in height and 15 inches in diameter. Useful for borders and edges. Mixed colors. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

WINTER FLOWERING OR EARLY SPENCERS

Grown in the open, this type begins to bloom several weeks ahead of the regular Spencer type. They are much prized for Fall planting, but planted in February or March they are much earlier than the regular Spencer Peas. They continue to bloom through a long season.

PRICES—Unless noted are uniformly as follows: Pkt. 15c; $\frac{1}{2}$ oz. 35c; oz. 60c. Any 12 pkts. for \$1.25

EARLY AMETHYST—Large royal purple.

EARLY AVIATOR—Dazzling crimson scarlet. Free flowering and sunproof.

EARLY BLUEBIRD—Large violet blue.

EARLY BLUE PICOTEE—White, edged violet blue on standard and wings.

EARLY COLUMBIA—Standard salmon rose; wings white.

EARLY CREAM—Large rich cream.

EARLY GLITTERS—Standards fiery orange; wings deep orange. Extra large.

EARLY GRENADIER—Brilliant dazzling scarlet.

EARLY HARMONY—Large clear lavender.

EARLY KING—Large deep crimson.

EARLY M'DONNELL—Giant pure white.

EARLY ORANGE BEAUTY—Large orange.

EARLY OTHELLO—Large deep maroon.

EARLY ROSE CHARM—Large bright rose.

EARLY WEDGEWOOD—Large bright blue.

*EARLY OREGON MIXED—A mixture of our own growing saved from fifty named varieties in our trial grounds. Large, plump seed. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 45c; $\frac{1}{4}$ lb. \$1.25; lb. \$4.50.

SWEET WILLIAM

Hardy biennial, easily grown from seed.

SEPARATE COLORS—Single sorts. WHITE, CRIMSON, MAROON, SCARLET, MIXED, Pkt. 10c.

NEWPORT PINK—A distinct color, being salmon rose or watermelon pink. Giant clusters. Pkt. 10c.

SCARLET BEAUTY—Large clusters of deep scarlet. Very popular. Pkt. 10c.

JOHNSON DIADEM—Giant blooms in immense clusters; deep crimson with white eye. Pkt. 10c.

NEW MAMMOTH MIXED—Gigantic strain. Single flowers in a great range of color. Pkt. 15c.

DOUBLE MIXED—A large portion come double. Extra select seed. Pkt. 15c.

SUNFLOWER

CHRYSANTHEMUM—Double, rich golden yellow; immense blooms on strong tall stalks. Pkt. 10c.

RED SUNFLOWER—The color varies greatly, some being chestnut red throughout, while others are red tipped with yellow, still others are yellow washed red; a portion will come pure yellow. Pkt. 10c.

PERENNIAL MIXED—Large single flowers excellent for cutting. Pkt. 15c.

TROLLIUS (Globe Flower)

A splendid hardy perennial producing globe shaped flowers in yellow and orange on stems a foot long. Pkt. 15c.

Dahlia Flowered Zinnia

ZINNIAS

This old fashioned flower has been highly improved and the new giant sorts are deservedly very popular. Blooms 5 to 6 inches in diameter are very common. The best results can be obtained by planting the seed where you wish them to grow. This is far better than transplanting except where early blooms are desired. Plant in open ground May 1 to June 15th.

MAMMOTH DAHLIA FLOWERED

The latest novelty in double Zinnias and of gigantic size and remarkable colorings.

PRICES ON DAHLIA FLOWERED ZINNIAS unless mentioned, uniformly; Pkt. 25c; $\frac{1}{2}$ oz. 90c.

BUTTERCUP—Immense, deep creamy yellow.

CANARY BIRD—Giant delicate primrose.

CRIMSON MONARCH—Largest and best red shade. after 8 inches across.

DREAM—Deep lavender, turning to mellow purple.

EXQUISITE—Light rose with deep rose center.

GIANT ATTRACTION—A distinct brick red.

ILLUMINATION—Striking deep rose self color.

LEMON BEAUTY—Pastel shade of golden yellow on brown.

METE'R-R:i:b, glowing deep red. Very dark.

OLD ROSE—Real old rose shade.

ORIOLE—Beautiful orange and gold bicolor.

POLAR BEAR—Giant pure white.

PURPLE PRINCE—A fine, deep purple.

SCARLET FLAME—Large bright scarlet with blending of orange throughout the petals.

MAMMOTH DAHLIA MIXED—A fine blending of colors. Pkt. 20c; $\frac{1}{2}$ oz. 60c; $\frac{1}{4}$ lb. \$2.00.

NEW MONSTER TYPE ZINNIAS

This new type offer some very rare and striking colors. PRICES, each, 25c pkt.

ORANGE KING—Compares with the color of Orange King Calendula.

LEMON KING—Of immense size with pleasant odor. Petals light canary with cerise on lower side, these two shades blending as the flower develops.

ORANGE QUEEN—A distinct orange color different from Orange King.

PURITY—Giant pure white.

ROSE QUEEN—Opens bright rose with deeper center but develops into a warm deep rose.

GIANT ZINNIAS

These are immense but not so large as the Dahlia flowered sorts. Flowers 5 inches in diameter are common.

GIANT MIXED—All colors. Pkt. 10c; $\frac{1}{4}$ oz. 40c; oz. \$1.25.

GIANT PICOTEE MIXED—Petal edges and tips are distinctly marked. Pkt. 10c.

QUILLED TYPE MIXED—Also called cactus type. This is a giant new type with long rolled or quilled petals. Very distinct. Pkt. 20c; $\frac{1}{2}$ oz. 60c.

VIOLET

The hardy perennial sweet scented violets. Easily grown from seed, offered in mixture. Pkt. 15c.

VINCA

Ornamental free flowering plants; fine for bedding. Sown outdoors in May will bloom in August. Mixed colors, pkt. 10c.

NURSERY LABELS

We offer copper wired labels, painted white on one side. Just right for tagging bulbs, shrubs, etc., at 50c per 100; \$3.50 per 1000 postpaid.

DAHLIA KNIVES

Many of our dahlia customers have trouble dividing up their dahlia clumps, their main trouble being the lack of the proper knife for this work. For years we have used a special hand-made knife. We now offer these for sale at 85c each postpaid.

GILL BROS. BLUE RIBBON DAHLIAS

At our seed farm six miles east of the heart of Dahlia sections in the world. We ship dahlias all over the United States and Canada and have won a reputation for good reliable bulbs that are true to name. Our soil produces solid, vigorous bulbs that give splendid results in any section of the country. Practically all the bulbs we sent out are of our own growing. It will pay you in the purchase of dahlias to buy direct from a grower who can supply his own stock as this lessens the chance of mistakes.

DAHLIA ORDERS

Will be filled during April and May, but may be sent to us at any time for booking, and will be filled in the rotation received. No dahlia orders will be filled after June 1, except collections, which will be sent up to June 15 if stock is unsold. Orders for dahlias of \$10 or more may select 10 per cent of the amount, extra, in dahlias as a premium.

DAHLIA GUARANTEE

We guarantee all the bulbs we send out to grow and to be true to name, but we will not be responsible for any more than the purchase price. In case of dahlias not growing they must be returned to us by July 1, of the season when purchased, with our labels attached. Sometimes bulbs are slow to sprout, but if at the end of 20 days they have not done so, remove the earth carefully from the bulb and if still dormant, return it to us. We can send you another at once; however, if it reaches us too late for planting that season, we will book the order for filling the season following.

Flowers considered untrue to name should be sent to us by parcel post for verification. Any extras we may include free in orders are not subject to this guarantee.

PRICES POSTPAID

The prices on all Dahlias offered include postage or express which we prepay.

DAHLIA CULTURE

We publish a bulletin telling how to plant, cultivate, fertilize and store dahlias. This is sent free to all who requested and a copy is included with each order of bulbs.

DAHLIAS, OUR 1926 INTRODUCTIONS

MRS. IRENE TAFF (PEONY)—This giant flower is really a hybrid Peony-Cactus. The broad petals are long and pointed, also slightly incurved. The petals are a rich wine red toned with golden yellow which deepens at the base forming a golden zone around the deep orange pollen center. The stems are ideal. A very distinct and unusual dahlia. Each \$2.50.

ILLUMINATOR (DECORATIVE)—Bright salmon rose of large size on strong stems. The petals have an inner petal or collar forming what might be called a double collarette. Flowers are large, full and very double. Each \$2.00.

FIERY GEM (SINGLE)—A free flowering, brilliant fiery scarlet. The flowers are about three inches across and are produced freely on good stems. Each \$1.00.

BRIGHTNESS (SINGLE)—Giant golden yellow tipped and toned with crimson. The bushes are loaded with blooms carried on long, erect stems. Each 75c.

TANCO (SINGLE)—A beautiful tan color or golden buff toned with scarlet. Good stems. Each 75c.

*For other sorts introduced by Gill Bros. note those in our general list indicated with a star.

NOTE—We have only one dahlia garden, that being located east of Portland, near Montavilla Suburb. This garden was started here by ourselves sixteen years ago, and last year comprised eight acres of dahlias. See Special Dahlia Bargains inside back cover.

WALL FLOWERS

Half hardy perennials, blooming early in the Spring. Easily grown from seed.

DARK BLOOD RED—Giant single blooms. Extra fine. Pkt. 15c.

CLOTH OF GOLD—Immense single flowers of clear rich golden yellow. Pkt. 15c.

MAMMOTH DOUBLE MIXED—A new strain with giant double flowers. A large per cent come double. Pkt. 20c.

SINGLE ANNUAL MIXED—Will flower the first season from seed. Pkt. 10c.

SINGLE MIXED—Various colors. Pkt. 10c.

WILD FLOWER GARDEN

This is a mixture of many kinds of annual flower seeds and will give splendid results on banks and along roadside, etc. Large pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. \$1.00.

GILL'S GENERAL LIST OF DAHLIAS

CACTUS AND HYBRID CACTUS

EXPLANATION—Those varieties in our list which are capitalized are the newer introductions. H. C. indicates Hybrid Cactus; these have broader and more massive petals. *Varieties indicated with a star were introduced by Gill Bros. GILL'S SELECT GLADIOLI

We are now growing most of the bulbs we offer and you will find them fully acclimated to Northwest conditions. They should be planted $3\frac{1}{2}$ inches deep in good rich soil well prepared. Planting time will depend upon your choice; March to June 1, will usually permit full bloom.

PRICES GIVEN ARE POSTPAID—50 at 100 rate; 6 at dozen rate. Only one variety can be used to secure dozen or 100 rate. Single bulbs 10c each, except where noted. We supply good healthy bulbs of large size, that will give strong spikes of bloom.

GLORIOUS GLADIOLI OFFER—75 medium size bulbs, $\frac{3}{4}$ to 1 inch in diameter, in a splendid mixture, postpaid, for \$1.00. These will make fine blooms the first season. You will be surprised at the value you receive. This offer enables everyone to have a fine Gladioli garden.

Please write below the names and addresses of a few of your friends who are interested in and buyers of SEEDS, PLANTS, BULBS, ETC. We will consider it a special favor and will mail you some seeds free of charge. However, this does not apply unless accompanied by an order amounting to 25 cents or more.

REMARKS ABOUT THIS ORDER

Please write inquiries which require an answer on a separate sheet as your reply will be delayed if written on your order. All orders are sent to the department for filling immediately upon arrival. Seed items are filled first.

OUR BARGAIN COUNTER

READ BEFORE ORDERING ON THIS PAGE

In offering this page of bargains we do so with the idea of encouraging a trial of our various lines, and we assure all that these are not makeshift bargains to unload worthless stock, but are genuine offers of the same standard of goods with which we supply our regular trade. All of the goods offered are for prompt delivery, weather conditions being favorable. Dahlias will be sent in April. All prices are postpaid to your address.

FREE PREMIUM ON EARLY ORDERS BEFORE FEBRUARY 20, 1926

On all orders, amounting to \$1.00 or more, received by us on or before February 20, 1926 (no later) we will include free, your choice of either 3 packets of flower seeds or 6 gladioli bulbs. The selection of varieties for this offer must be left to us. Order today, don't put it off or you may be too late. Besides getting the early premium we can give you better service if your order comes before the spring rush.

GILL'S DAHLIA COLLECTIONS

Since it is impossible for us to gauge the amount of sales upon any variety in advance, we often have a surplus of dahlias left in very good sorts. This enables us to make the remarkably low rates on collections given below. These bulbs will be labeled with their correct name and no two alike, chosen with regard to color; however, they must be entirely our own selection. Prices are postpaid.

No. 1-12 CACTUS DAHLIAS, good standard sorts, \$2.50; six for \$1.50.

No. 2-12 PEONY DAHLIAS, \$2.25; six for \$1.25.
